Germs Lesson 1: Bacteria

Written By: Joshua

INTRODUCTION

Learn about germs by making your own! No, not literally, but we will have you make fun 3D vibrating germ models to help you better understand the types of germs and how they spread. This is the first of three lessons on the subject. All printable materials, worksheets, and parent/ teacher guides at the very bottom of this page.

TOOLS:

- Scissors (1)

PARTS:

- Origami Circuits Kit (1)
- Maker Tape (1)
- Self-Sticking Vibrating Motor (1)
