

Moisture Sensing Transistor Circuit

Create a simple transistor/LED circuit that can detect and alert for the presence or absence of moisture!

Written By: Andy Wallus

INTRODUCTION

Create a simple transistor/LED circuit that can detect and alert for the presence or absence of moisture!

 TOOLS:

- [Scissors](#) (1)

 PARTS:

- [Maker Tape](#) (1)
1/4" Wide
- [2N3904 NPN Transistor](#) (1)
- [CR2032 Battery](#) (1)
- [Jumbo 10mm Diffused LED](#) (1)
- [4700 Ohm Resistor](#) (1)
- [Printable Template](#) (1)
