Moon Phase Cube

Create a simple 1 LED paper lantern depicting the phases of the moon. Turn one way to make the moon get bigger and the opposite to get smaller!

Written By: Andy Wallus

INTRODUCTION

Create a simple 1 LED paper lantern depicting the phases of the moon. Turn one way to make the moon get bigger and the opposite to get smaller!

You can make this project (and many more!) with our **Paper Circuits Kit**.

TOOLS:

- Scissors (1)
- Clear Tape (1)

PARTS:

- Paper Circuits Kit (1)
- Printable Template (1)

Use the paper key to turn the circuit on. Then, turn off the room lights to view the phases of the moon indoors! Attach a string to hang it by for added effect!
