INTRODUCTION

Make this Minecraft-Inspired Dynamite using this guide and the templates found in the attached PDF file.

This projects can be created with our **Origami Circuits Kit**. You'll just need some Maker Tape, a CR2032 Battery, and a Vibrating Motor.

You'll need to supply your own paper, scissors, and tape.

TOOLS:

- Scissors (1)

PARTS:

- Origami Circuits Kit (1)
- Clear Tape (1)
