INTRODUCTION

After building your LEGO Fireboat, follow this step-by-step guide to add an LED circuit with components from your Crazy Circuits Starter Set!

TOOLS:

- Scissors (1)

PARTS:

- LEGO City Starter Set 60086 (1)
- Crazy Circuits LED Chip (2)
  Red
- Crazy Circuits Coin Cell Battery Holder (1)
- CR2032 Battery (1)
- Maker Tape (1)
  1/8" Wide

Step 1 — Modify standard build

- **Remove the parts** shown to make room for a new platform that your circuit will be mounted on.

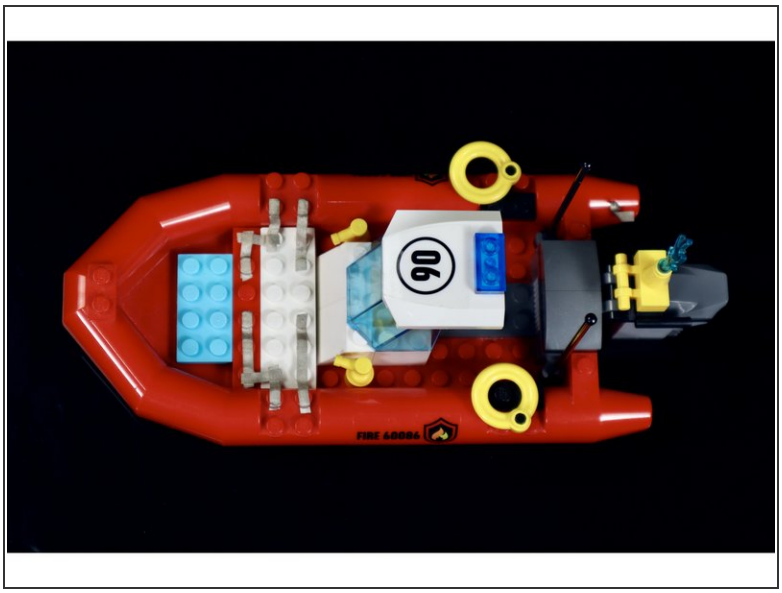

Step 2 — Add new parts

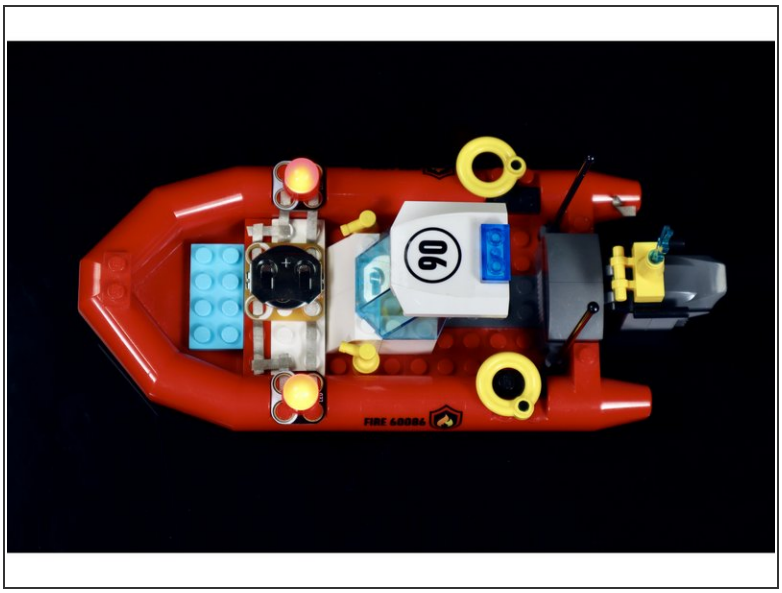

- **Use the parts pictured to modify your completed build** by adding a platform for your circuit.

Step 3 — Prepare circuit

- **Measure, cut, peel and stick** tape paths as pictured both here and the attached diagram.
- Use the second photo and the attached diagram to help you **position and press the circuit components into place**.
