Ewe Light Up My Life Valentine Card

Use the downloadable template located at the bottom of this guide to create a fun light-up Valentine's Day card for someone you love!

Written By: Andy Wallus

INTRODUCTION

Use the downloadable template located at the bottom of this guide to create a fun light-up Valentine's Day card for someone you love!

You can make this project (and many more!) with our **Paper Circuits Kit**.

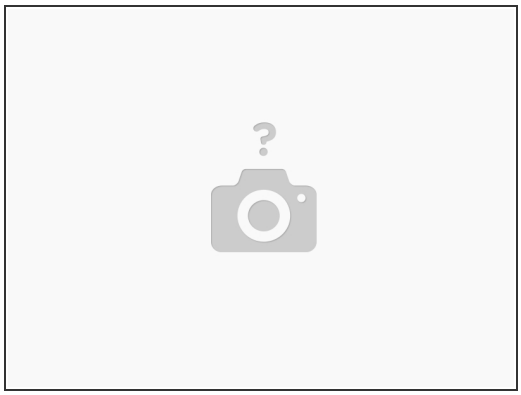

TOOLS:

- Scissors (1)

PARTS:

- Paper Circuits Kit (1)
- Printable Template (1)

Step 1 — Print Template and Follow Circuit Diagram

- **Gather** the **tools and materials** listed.
- **Print and cut out your card template** from your choice of paper (we used 100# cardstock but it will work just fine with copy paper).
- **Color if you chose the black and white version.**
- **Poke holes where marked for LED legs** and **follow circuit diagram** on the inside cover to complete the project.

Don't be sheepish...tell them that you love them with your cool new card!
