Light-Up Goblin Mask

Make a Light-Up Goblin Mask with this free template. It's the perfect art and technology wearable project for Halloween, a costume party, or just because!

Written By: Natasha Dzurny

INTRODUCTION

Make and customize your own Light-Up Alien Mask with this template. This guide is an overview of this design. For a more detailed circuit tutorial, see the Light-Up Spider Mask Guide.

If you like this mask, check out these other designs:

- Cat
- Spider
- Unicorn

You can make this project (and many more!) with our **Paper Circuits Kit**.

TOOLS:

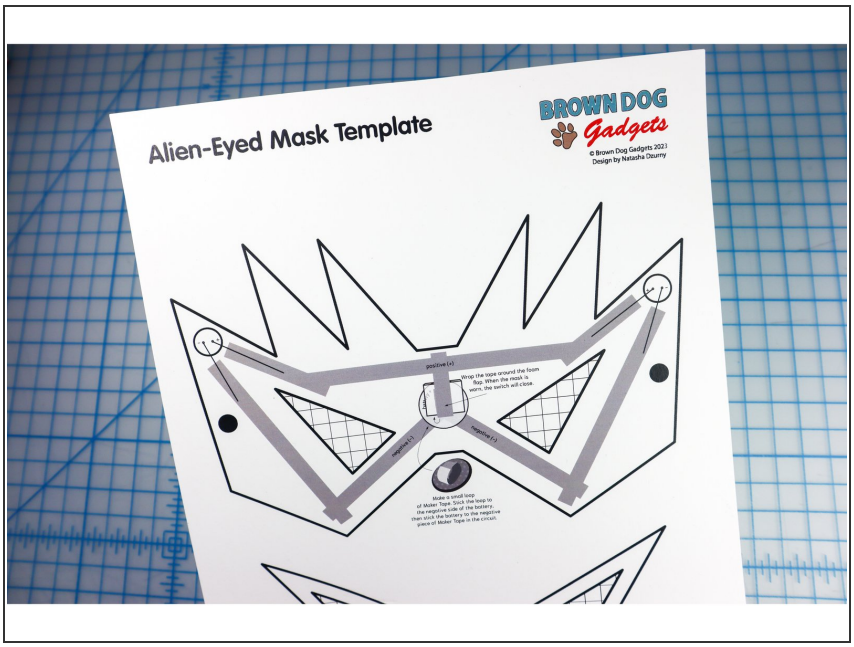

- Printer (1)
- Scissors (1)
- X-ACTO Knife (1)
- Stapler (1)

PARTS:

- Paper Circuits Kit (1)
- Felt (1)
- Tacky Glue (1)
- Glitter Glue (1)
- Ribbon (1)

Step 1 — Print the Template

- Print out the Alien-Eyed Mask Template to use as a base for the Goblin design.
  - *You don't need the embellishments sheet to copy this design, but it's there for you to use if you'd like!*
- This guide is an overview of this design. For a more detailed circuit tutorial, see the Light-Up Spider Mask Guide.

Step 2 — Cut out the Shapes

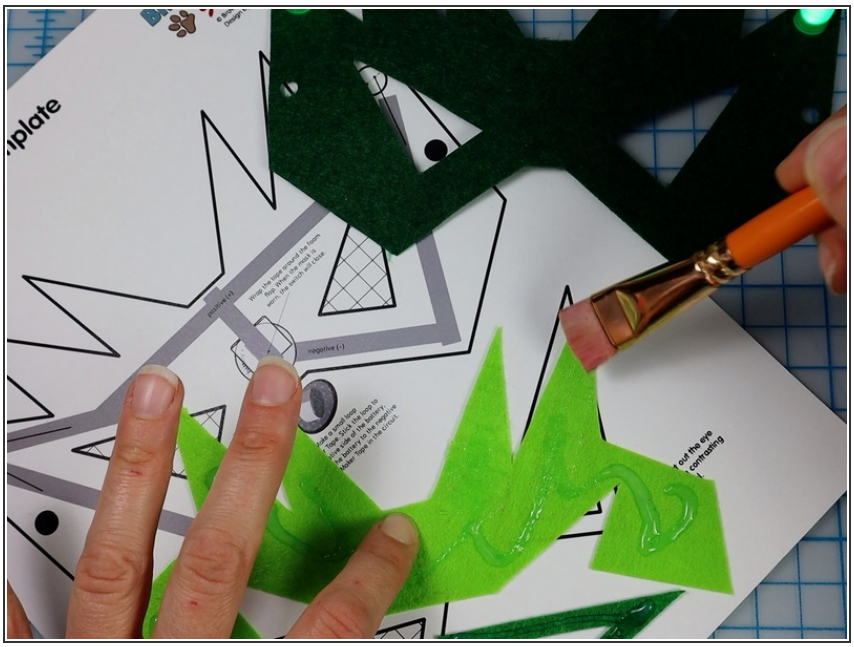

- Cut out the mask template and use the full template to cut out the main shape.
- Cut the template along the dotted lines, then cut the new shape out of a contrasting color of felt.
- Cut out the eye shapes.

Step 3 — Glue the Pieces Together

- Glue the pieces together.
- You may choose to use glitter glue to decorate the front before or after you build the circuit.

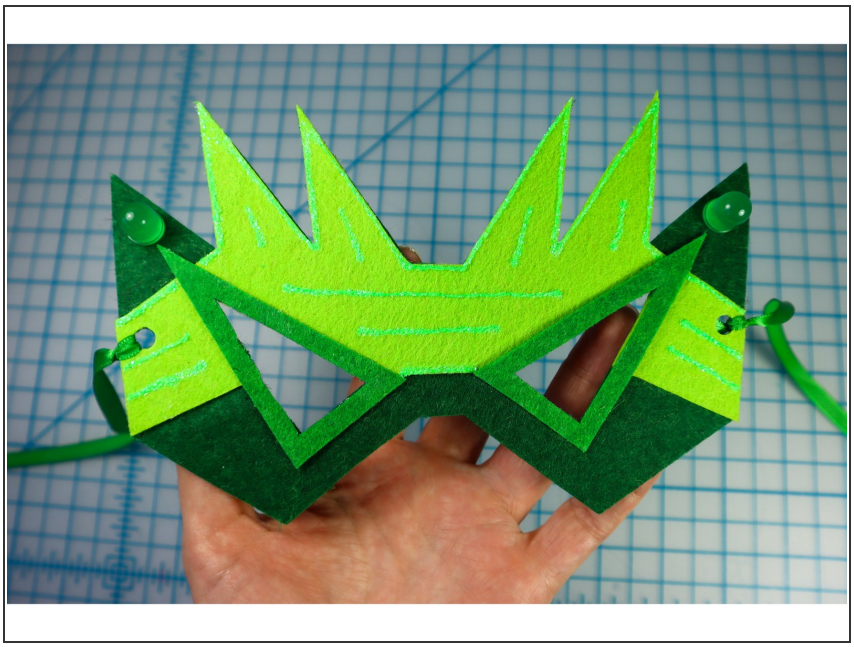

Step 4 — Add the Circuit

- Follow the instructions on the template to add the circuit to the back.

Step 5 — Add Ribbon

- Add a green ribbon to the mask to keep it on the wearer's head.

Step 6 — Wear the Mask!

- Time to wear your mask and light the night!
