Light-Up Glasses - Happy Birthday / New Year

Make light-up glasses for a birthday party or New Year's party activity.

Written By: Natasha Dzurny

INTRODUCTION

Make light-up glasses for a birthday party or New Year's party activity.

You can make this project (and many more!) with our **Paper Circuits Kit**.

TOOLS:

- Printer (1)
- Scissors (1)
- X-ACTO Knife (1)
- Push Pin (1)
- Glue Stick (1)
- Markers, Crayons, or Colored Pencils (1)
- Glitter Glue (1)

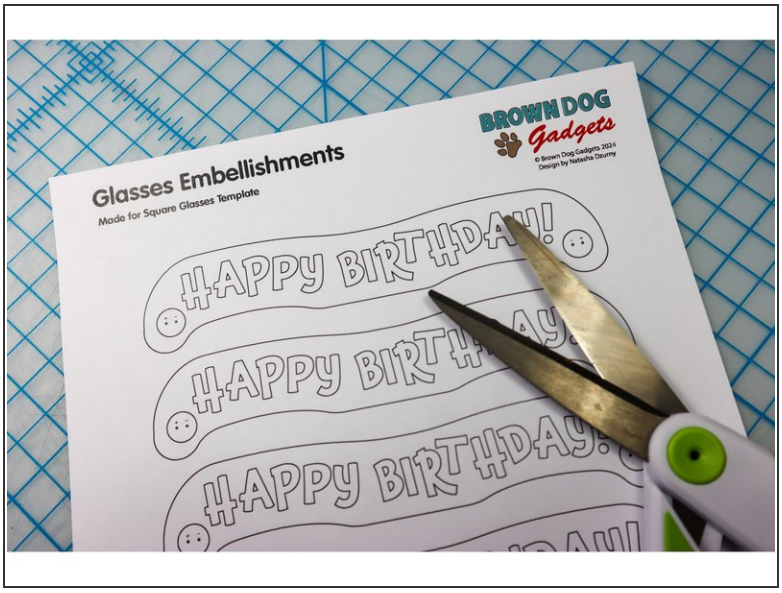

Optional

PARTS:

- Paper Circuits Kit (1)
- Cardboard (1)
- Colored Acetate (1)

© 2024

Step 1 — Choose and Print

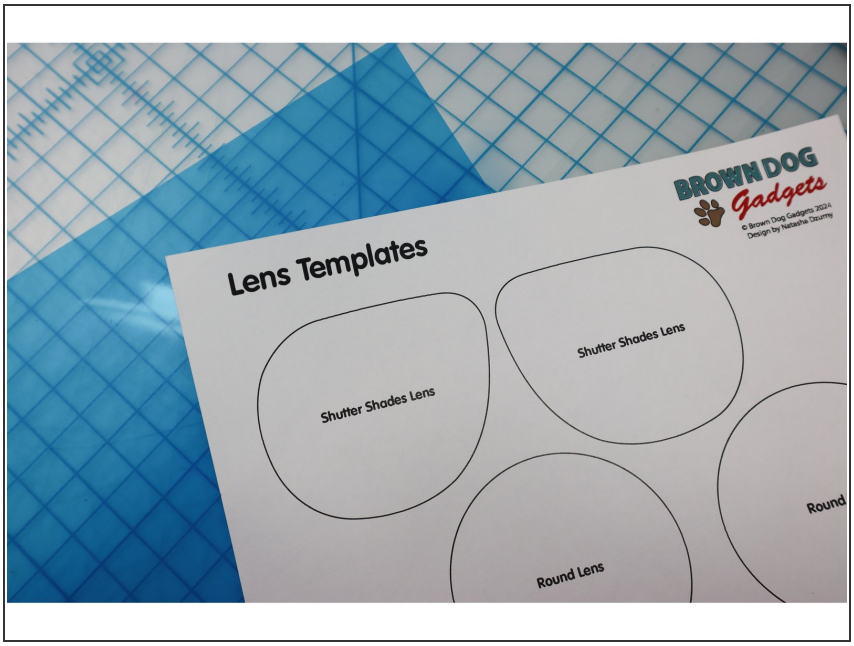

- Choose either the **Happy Birthday** or **Happy New Year** template found in the **Attached Documents** section at the bottom of the page and print it out.

Step 2 — Color and Cut Out

- Cut out the templates, then color them with markers or even glitter glue.
- To complete the circuit, follow the instructions in the main Light-Up Glasses Guide.

Step 3 — Optional Lenses

- As an optional step, use the lens templates to add lenses to your glasses. This shape requires the template marked "square lens".
- We used hot glue to attach colored acetate sheets to make these glasses extra cool!

Step 4 — Wear Your Glasses to the Party!

- Now you have light-up glasses to wear to your next party!
