Gratitude Turkey

Use the printable template and instructions to make a customizable turkey to show off what you are grateful for!

Written By: Amanda Etim

INTRODUCTION

Use the printable template and instructions to make a customizable turkey to show off what you are grateful for!

You can make this project (and many more!) with our **Paper Circuits Kit**.

TOOLS:

- Scissors (1)
- Clear Tape (1)
- Markers, Crayons, or Colored Pencils (1)

Optional

- Push Pin (1)

Optional

- Safety Pin (1)

Optional

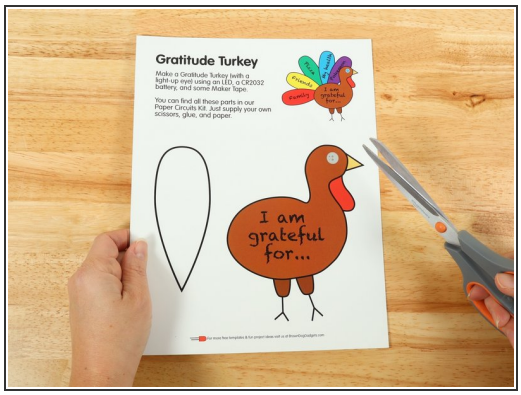

PARTS:

- Paper Circuits Kit (1)
- Cardstock (1)

Step 1 — Cut Template

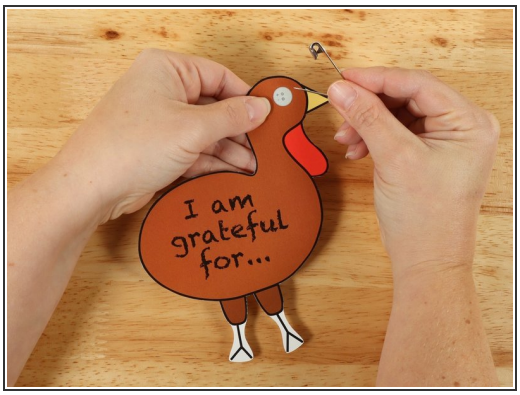

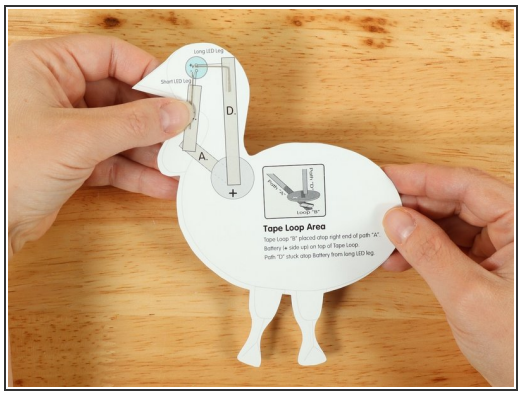

- If you are using the black and white template, color in the turkey body.
- **Cut** out the turkey body and feather template.

Step 2 — Add LED

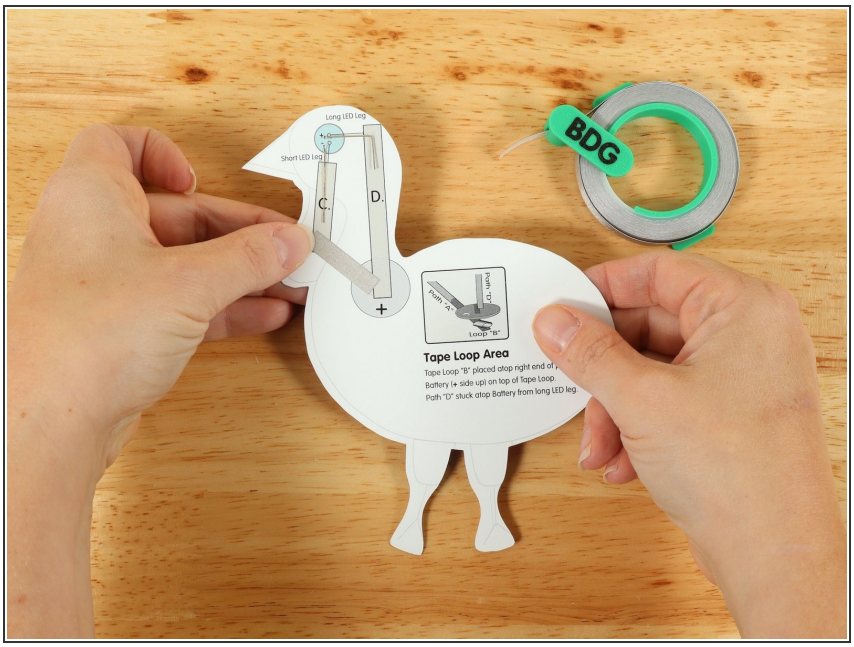

- Using a push pin or safety pin, poke holes through the front of the template and **put the LED legs through the holes.**

Make note of where the longer **Positive** and shorter **Negative** legs go. *Polarity matters!*

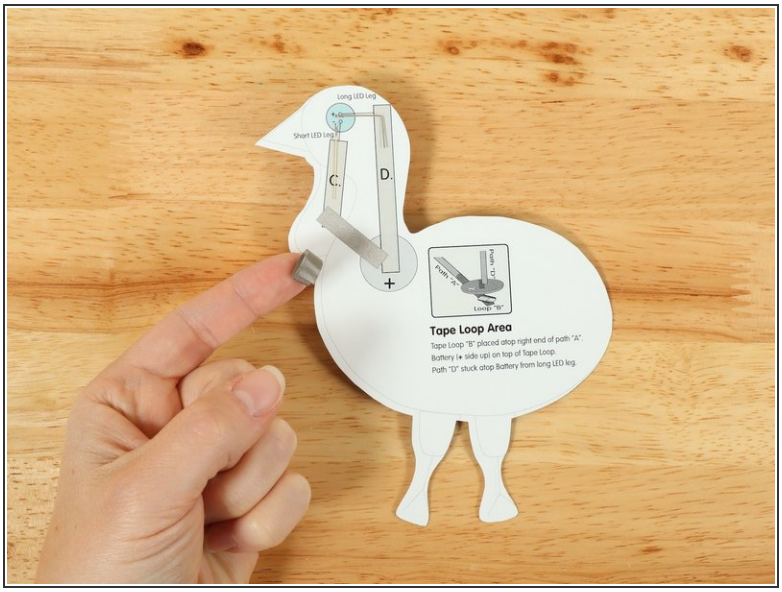

- Turn the template over and **bend the LED legs flat** against the paper to match the diagram.

Step 3 — Add Tape Path A.

- Add Maker Tape to **tape Path A.**

Step 4 — Add Tape Loop B.

- Make a **loop of tape** (sticky side out) using a short piece of Maker Tape, and stick it atop the end of Path A.

Step 5 — Add Battery

- Once your tape loop is in place you can add the **Battery** to it.

- Make sure the **Positive** side of the Battery is facing upwards, with the **Negative** side stuck down to the tape.

Step 6 — Add Tape Path C

- Add **tape Path C**. over the short LED leg holding it in place.

Step 7 — Add Tape Path D.

- Add **tape Path D**. over the top of the long LED leg holding it in place.
- Tape Path D should connect the long LED leg to the top of the battery.

Step 8 — Cut Feathers

- Using your feather template, **trace and cut out** the amount of feathers you want for your turkey.
  - ⓘ 4-5 feathers is an ideal amount to give it a finished look.
  - ⓘ You can cut the feathers out of colored cardstock, colored construction paper or white paper and color your own.

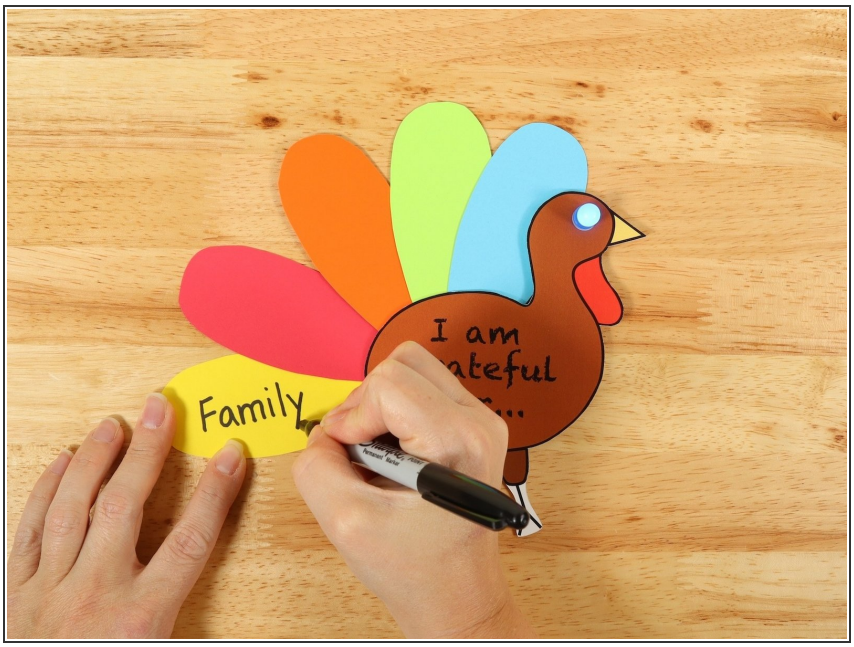

Step 9 — Attach Feathers

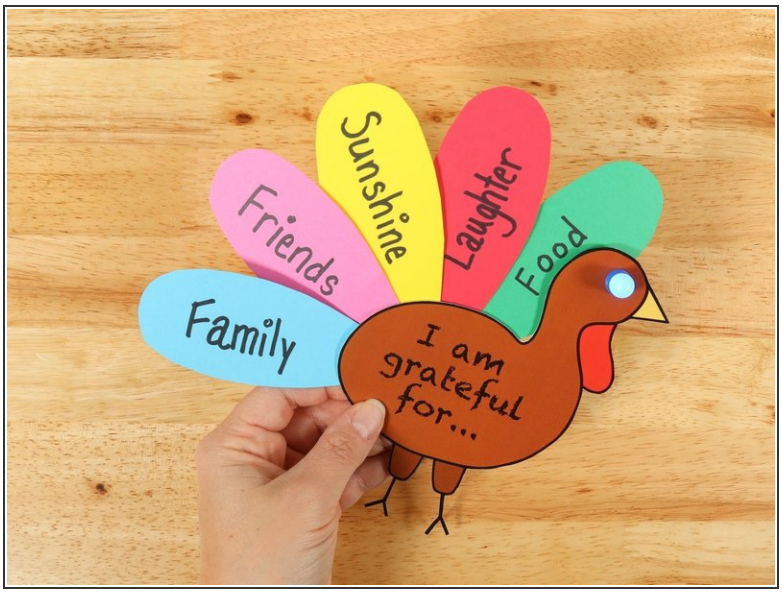

- Using a piece of clear tape, line up the feathers with the points touching and **tape them together.**
- Make a tape loop of clear tape and **attach the feathers** to the back of the turkey.

Step 10 — Label Feathers

- You can now use a marker to write something you are grateful for on each feather!

Step 11 — Completed Gratitude Turkey

- Show off your turkey and talk about all the things you are grateful for!
