

Tape Roll Holder (1/8" Wide, 5 Meter Roll)

A 3D Printed Tape Roll Holder for our 1/8" Wide, 5 Meter Roll of Maker Tape.

Written By: Pete Prodoehl

INTRODUCTION

A 3D Printed Tape Roll Holder for our 1/8" Wide, 5 Meter Roll of Maker Tape.

Our 1/8" Maker Tape is used as part of our **Crazy Circuits** brick-based electronics system.

Check out all of our Tape Roll Holders:

- [Tape Roll Holder \(1/4" Wide, 20 Meter Roll\)](#)
- [Tape Roll Holder \(1/4" Wide, 5 Meter Roll\)](#)
- [Tape Roll Holder \(1/8" Wide, 5 Meter Roll\)](#)

TOOLS:

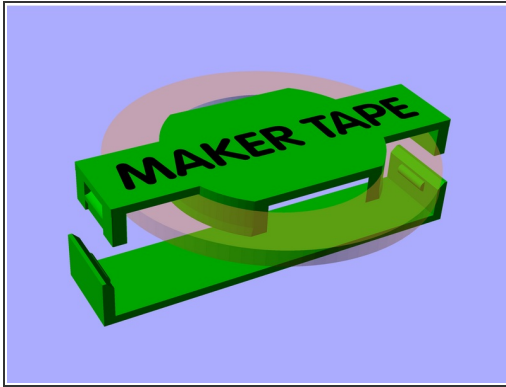

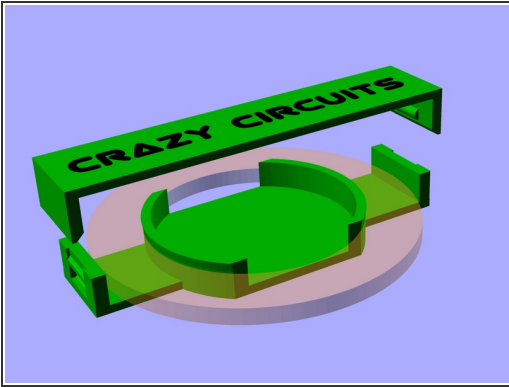

- 3D Printer (1)

PARTS:

- Maker Tape (1)
1/8" (5 Meter Roll)

Step 1 — Download and Print

- You can download the files and print them on your own 3D Printer.
- Find the files in our GitHub repository: <https://github.com/BrownDogGadgets/3D-Pr...>
- You can also find them on Printables.com: <https://www.printables.com/model/232952-...>
- As well as Thingiverse: <https://www.thingiverse.com/thing:542132...>
- And MakerWorld: <https://makerworld.com/en/models/2835237...>

Step 2 — Notes

- The latest version of our Small Tape Roll Holder (v3) has been simplified. It now consists of the main body and a single clip. There is less chance of the tape getting tangled or twisted now.
- We've also included text on the body and the clip. If you have a multi-color 3D printer we recommend printing the text in black, or at least a darker color than the rest of the print. (You can also ignore the text and just print the body and clip as single-color prints.)
