Shivers the Penguin

A moving Penguin in a top hat, because he's fancy.

Written By: Joshua

INTRODUCTION

Create a fun 3D cube Penguin that moves and shakes. Just cut out the template, add in the self sticking motor, and glue it all together. The entire project is controlled via a pull tab that you make yourself.

TOOLS:

- Scissors (1)
- Glue (1)
- Clear Tape (1)

PARTS:

- Origami Circuits Kit (1)
