Wind Wand Classroom Curriculum Day 2

Written By: Andy Wallus

TOOLS:

- Scissors (1)

per student

- Pencil (1)

1 per student (to serve as the Wind Wand stand)

- Writing Utensils (1)
- Ruler (1)

per student

PARTS:

- Wind Wand (1)
- Printable Student Data Sheet (1)
- Masking Tape (1)

Step 1 — Day One Classroom Curriculum

- Use the lesson plan, listed materials, and accompanying documents found at the bottom of this guide to help you teach your students **how to assemble their Wind Wands** as well as what it can show them about about **the Law of Conservation of Energy, Circuitry, and Polarity.**

Step 2 — Wind Wand Classroom Curriculum Day Two

- **Use the lesson plan, listed materials, and accompanying documents found at the bottom of this guide** to help you teach your students how to test and modify their Wind Wands while learning about variables that impact Wind Turbine efficiency.
