TARDIS

Your own TARDIS, spinning through time and space.

Written By: Joshua

INTRODUCTION

Create your own spinning, time traveling, police box using this simple design. The design allows for the use of both an LED and a vibrating motor, which can both be activated via two separate pull tab switches. Two different versions of this template are available; one that you can color yourself and another which can be printed off in color.

TOOLS:

- Scissors (1)
- Clear Tape (1)

PARTS:

- Origami Circuits Kit (1)
- Paper Circuits Kit (1)
