03_Upgrade PanelDue Firmware

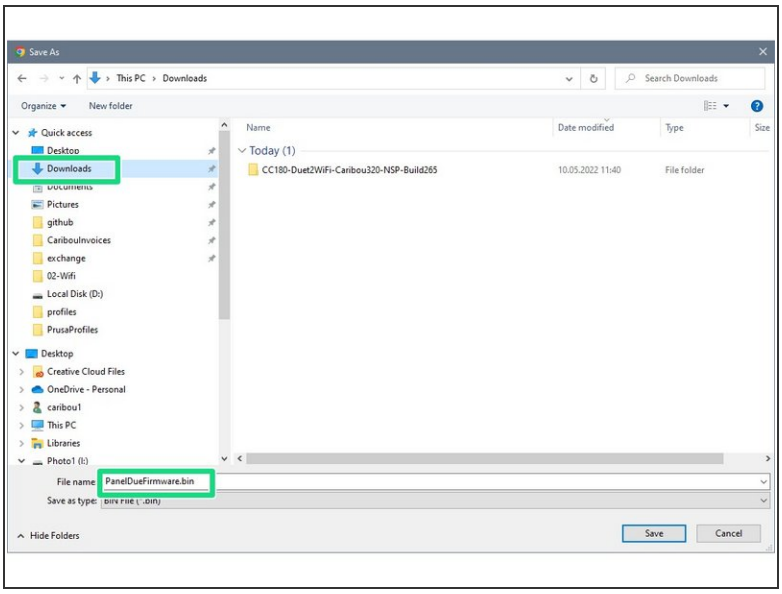

Written By: Caribou3d

This document was generated on 2022-07-09 05:08:18 AM (MST).

Step 1 — Download PanelDue Firmware

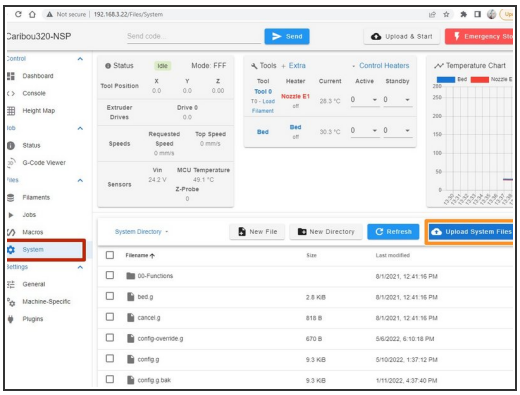

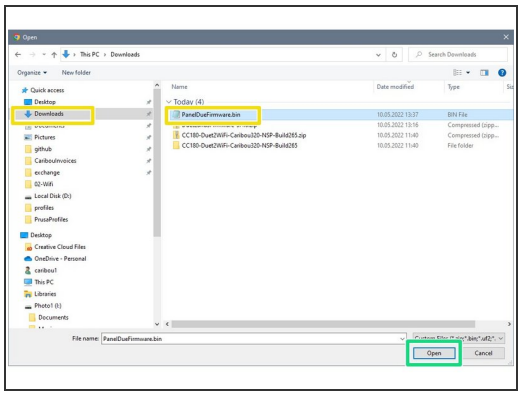

- Go to the [CaribouDuet Software page](#).
- In the File Manager of the page, click:
  - **04_PanelDue / 01_Latest Version x.x**

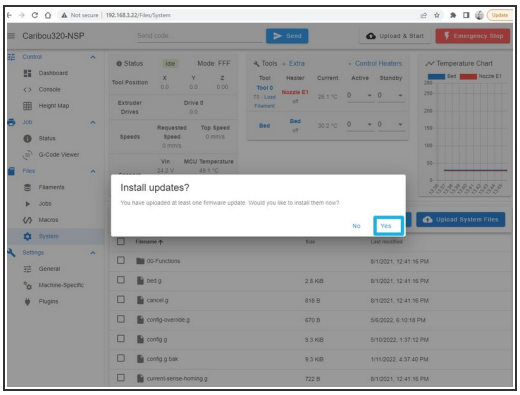

ⓘ The version number may differ when new firmware is released.

  - Download the .bin file by clicking on it.
  - Save the file in a directory of your choice.

Step 2 — Installing the PanelDue firmware

- In Duet WebControl, select **System**.
- Click there on **Upload System Files**.
- Es öffnet sich ein Fenster und Sie wählen dort die Datei PanelDueFirmware.bin aus.
- Click on **open**.
- In the window that opens after the upload, click **yes**.
- The firmware is now installed. The process takes about 45sec.

⚠ If you get an error message that access is not possible, take a thin stick and press the **Erase button** (small hole above the push button on the PanelDue Cover) once briefly.
