Step 1 — Unpacking and Inspection

- A. Quick Start Guides
- B. Keyboard
- C. Mouse
- D. AA Battery
- E. (2) AAA Battery

Step 2 — Preparing the Mouse

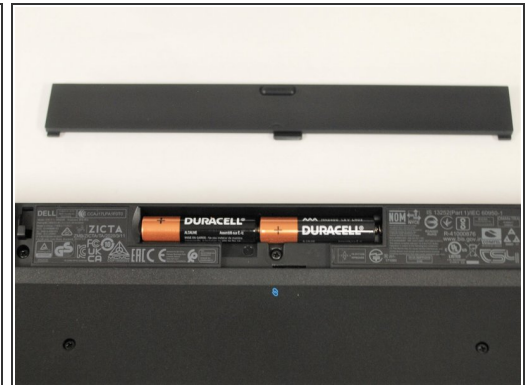

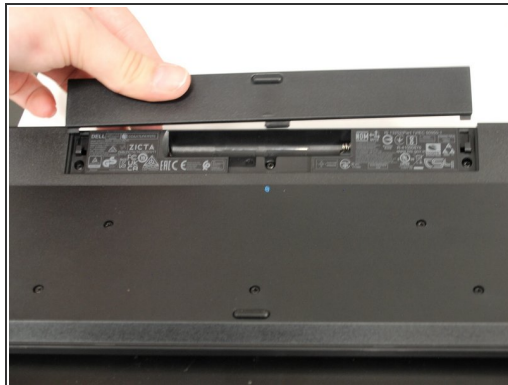

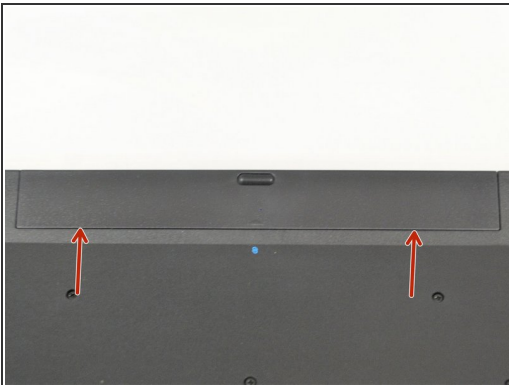

- Unpack the mouse and lay it on a flat surface.
- Lift the top cover off of the mouse
- Insert the AA Battery into the mouse in the way shown.

Step 3 — Connecting the Mouse

- Remove the dongle from the mouse.
- Put the mouse cover back onto the mouse.
- Plug the dongle into a Mini PC USB Port

Step 4 — Connecting the Keyboard

- Look at the back of the keyboard to find the battery compartment and slide it open.
- Insert the batteries into the slot for them.
- Slide the battery compartment cover back into place.
