9- How To Perform A Firmware Update

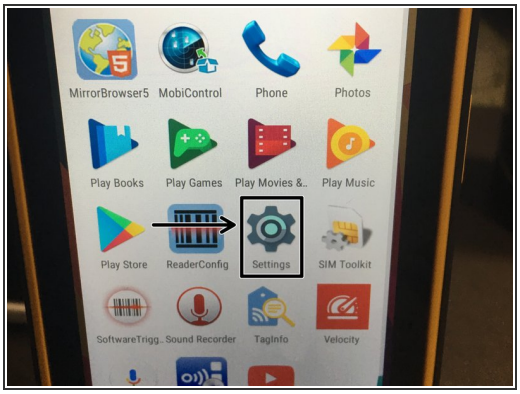

How to update the firmware on the GSS-MOBILE-3.

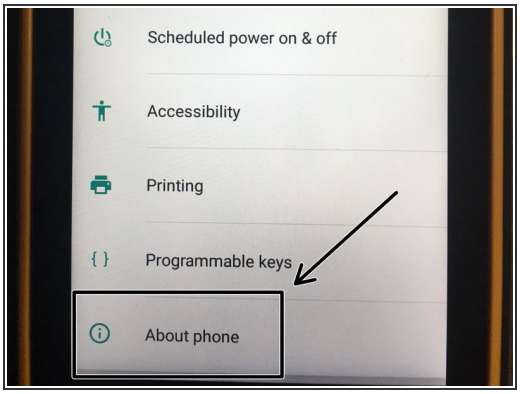

Written By: Eric Sutter

Step 1 — Updating Firmware Pt. 1

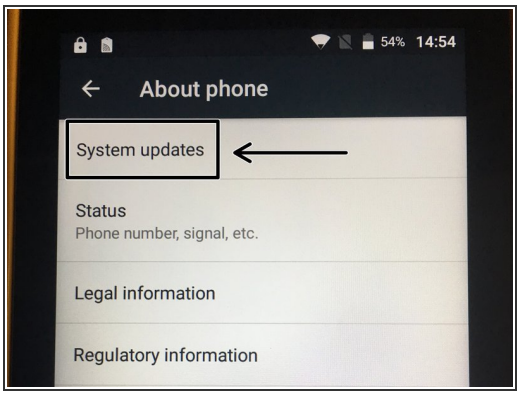

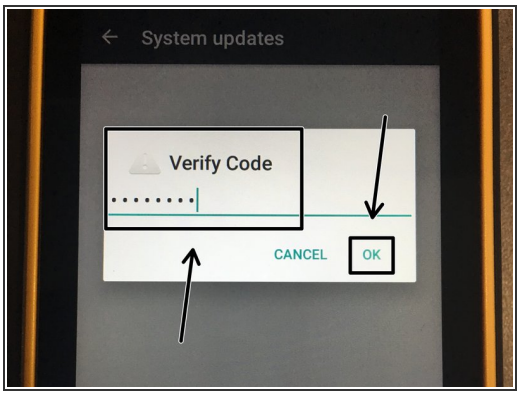

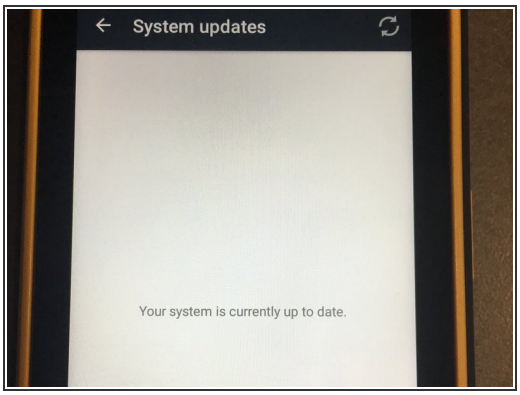

- From the Home Screen, select the Apps icon.
- In the Apps menu, scroll down and select Settings.
- In the Settings menu, scroll down and select About Phone.

Step 2 — Updating Firmware Pt. 2

- In the About Phone menu, choose the option for System Updates.
- You will be asked for a code. Please enter 23058518 and hit OK to continue.
- If a new update exists, you will be prompted to perform an update. Otherwise, you'll receive a screen indicating that the system is up to date.
