2- Connecting to WiFi

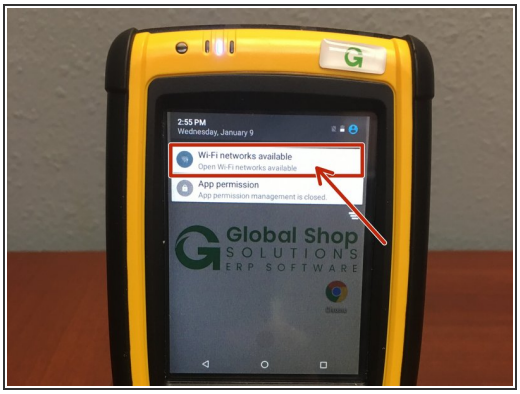

These are the steps to take to get on your WiFi.

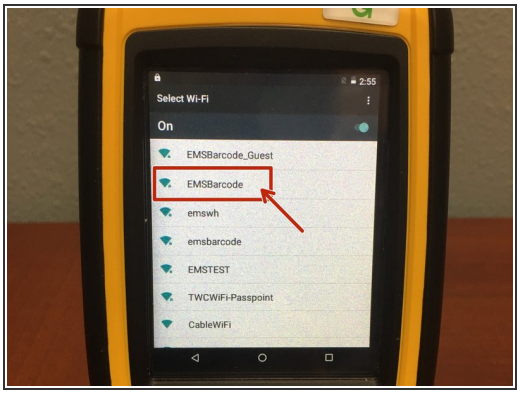

Written By: Emilio Vallejos

Step 1 — Connecting to WiFi pt.1

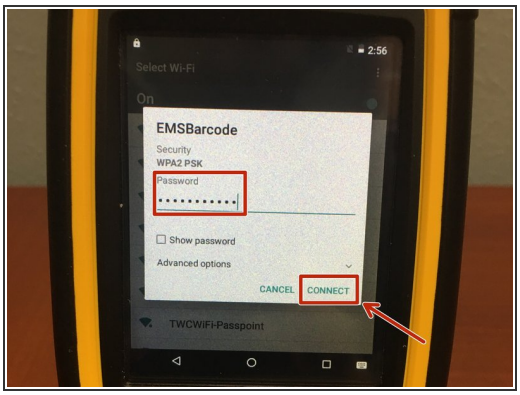

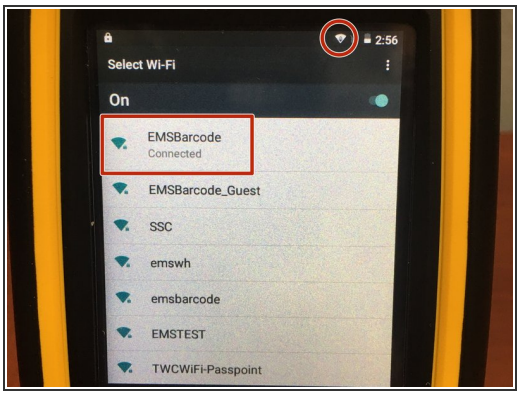

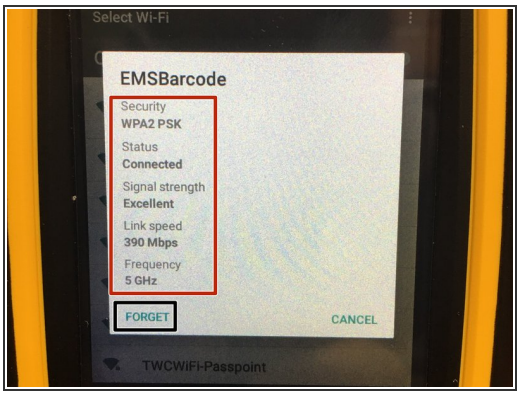

- From the home screen, drag down from the top of the screen to reveal the next menu.
- Touch the area the says WiFi Networks Available.
- Choose the SSID you wish to connect to.

Step 2 — Connecting to WiFi pt.2

- Enter your password in the Password field and touch Connect when complete.
- You'll return to the SSID selection page. You can see if you're connected under the SSID. You can also see if data is being used on the connection by looking at the Filter simple on the top right corner.
- For more information about the connection to the SSID. Touch the SSID name. If you need to remove the device from the network, hit Forget.
