# Screen - Light, Portable

Written By: Todd Lucas

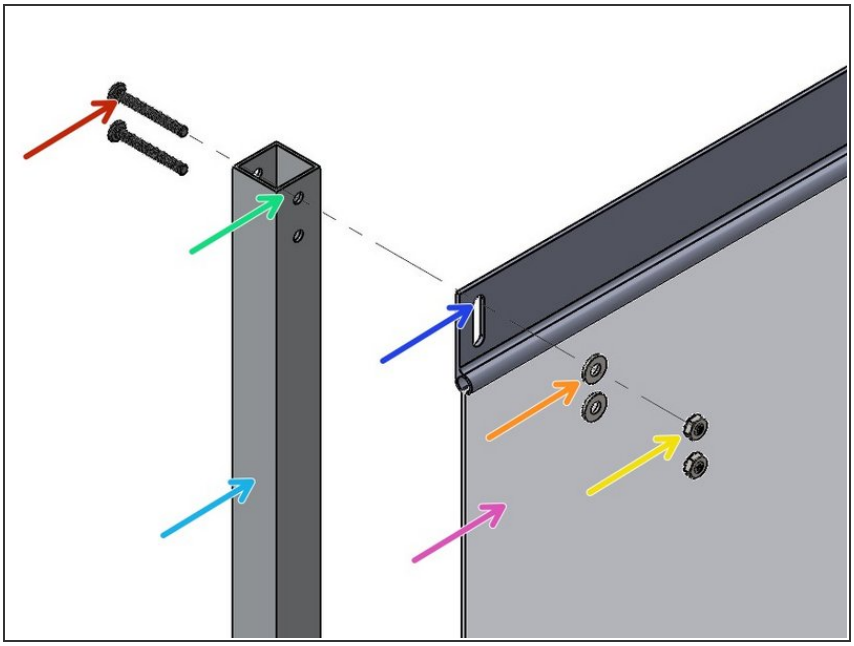

## Step 1 — Screen Assembly Overview

- Assemble a Screen to
  - two Posts to create a Screen.
- Install Feet to create the Standing Screen.

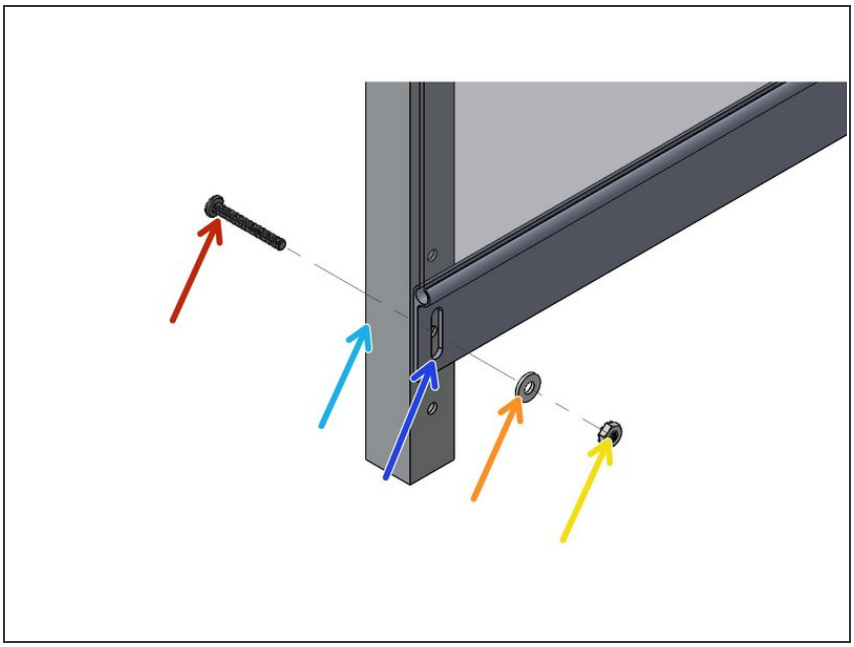

## Step 2 — Screen Post Assembly - Top

- Lay the Posts on a flat surface.
- Unroll the Screen between the Posts with the Logo facing Up and at the Bottom.
- From the Back Side, insert a Screw
  - through the Post
  - through the Screen Slot
  - through a Washer.
- Secure the pack with a Lock Nut.

## Step 3 — Screen Post Assembly - Bottom

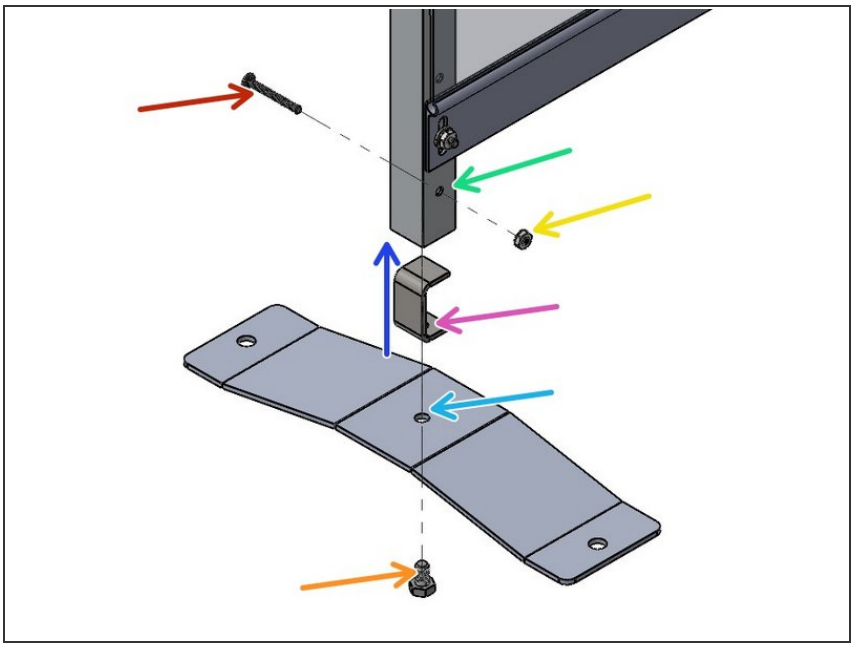

ⓘ The Post Bottom has 4 holes. The Bottom Hole is used for mounting the Foot, and is not used in this step.

- At the Post Bottom, slide a Screw
  - through the Post
  - in a Hole that aligns with the Slot Bottom on the Screen.
- Slide a Washer onto the Screw.
- Secure the pack with a Lock Nut.
- Repeat the process for the other Post.

## Step 4 — Foot Assembly

- Orient the Foot to the
  - "C" Bracket as shown.
- Secure the 2 parts together with a Hex Screw creating the "Foot Assembly".
- Slide the Foot Assembly into the Post Bottom. The "C" Bracket must be oriented as shown.
- From the Back Side, insert a Screw
  - through the Post's Bottom Hole.
- Secure the pack with a Lock Nut.
- Repeat this process for the other Foot.
