

Canvas Teams

Showing the key features of Canvas Teams - creating teams - owner, admin, operator and contributor access - creating and managing team projects

Written By: Guy Elston

Step 1 — Inviting Team Members

- The Team Owner can invite new team members from the Team Settings page. This can be found under the person icon in the top right of Canvas
- 'Invite new team member' is at the bottom of the Team Settings page. The owner sets the role of the new member - admin, operator or contributor
- Admin accounts will also be able to invite team members and edit their roles, as well as rename and deactivate team members

Step 2 — Printer Profiles and Devices

Edit Element Cancel Save printer

General

Extruder

Extruder count
Total number of extruders on the printer.

1

Extruder 1

Nozzle diameter
Enter nozzle diameter

0.4 mm

Filament diameter
Enter filament diameter

1.75 mm

Bowden tube length
The last piece of filament that Palette creates will be extended by this amount. This ensures that the filament is still gripped by the printer's drive gear at the end of the print. For printers with Bowden tubes or long extruders, this should be the distance from your printer's drive gear to the nozzle tip. If you are unsure of the exact measurement, overestimating is better.

- Every member in your team shares devices, printer profiles and material profiles
- Operators can link, unlink and rename devices.
- Owner, Admin and Operator accounts are able to make changes to printer/material profiles and send commands to devices
- Contributor accounts will only be able to view printer profiles and devices

Step 3 — Team Projects

- All accounts can create new team folders and projects
- In the Team Projects tab you can review all folders and projects, including who last modified each project. If you switch to list view, you can see who created the projects as well
- You can keep personal projects separate in My Projects.

Step 4 — Transferring or Deleting a Team

- Only a Team Owner can transfer ownership of a team, or edit the team name
- For help with deleting a team, please contact Mosaic Support at support@mosaicmfg.com

If you have any additional questions, please send us a message at support@mosaicmfg.com
