Slicing

Written By: Alina

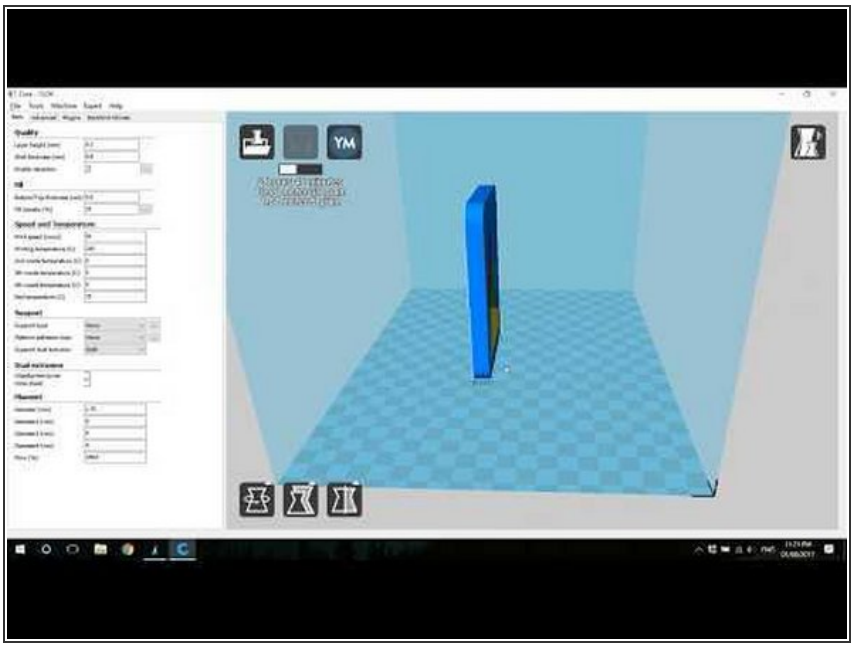

INTRODUCTION

Palette supports four slicing programs, Cura, Slic3r, KISSlicer, and Simplify3D. Simply download our stand-alone application, Chroma, and modify your print file before it goes to your printer.

Step 1 — Cura

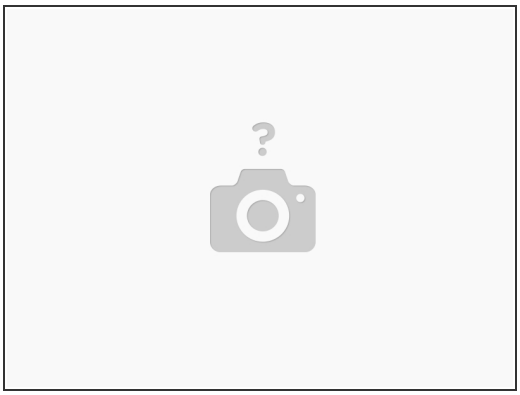

- We have a video for Cura V15.04.6, the most stable version for Chroma.
- For more recent versions of Cura, please see here: http://mm3d.co/cura

Step 2 — Simplify3D

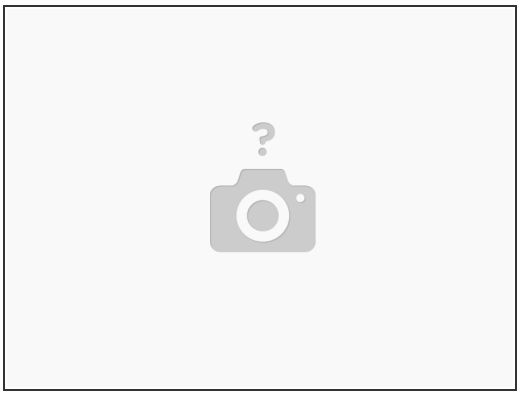

- Insert wisdom here.

Step 3 — Slic3r
