This document was generated on 2022-04-30 12:41:55 AM (MST).

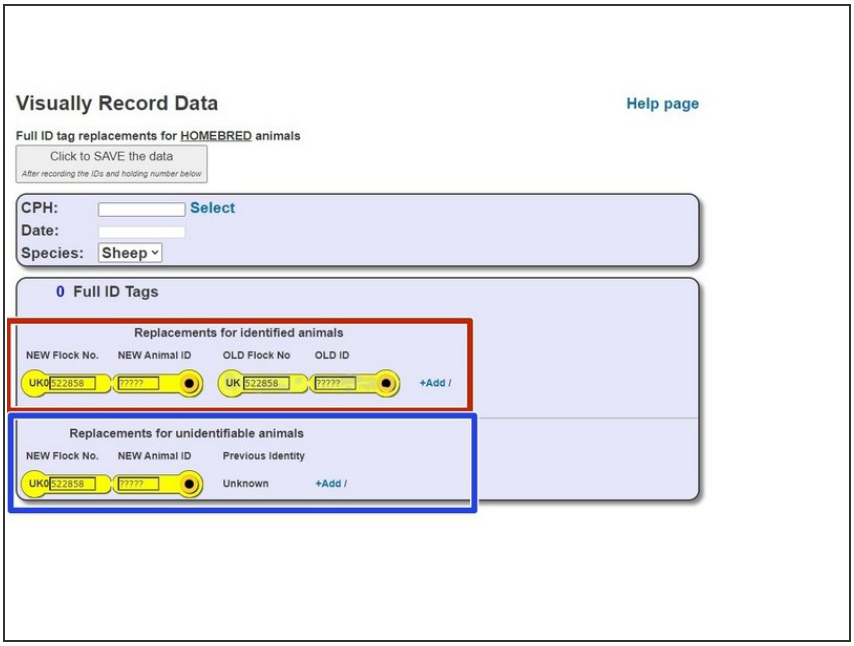

Step 3 — Add Details

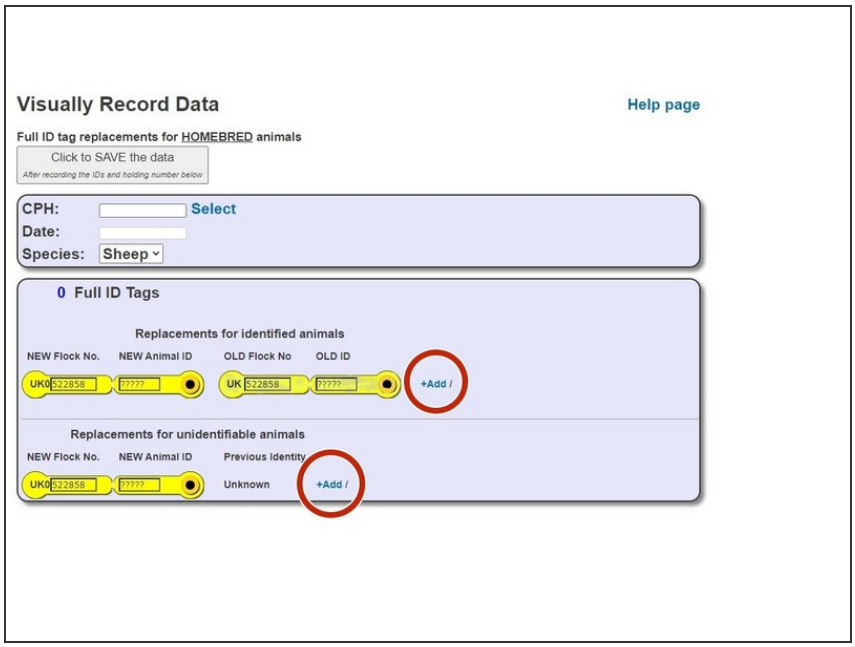

- Enter the CPH. Your CPH will be prepopulated into this box, but by clicking on the Select button to the right of the box, a list of options appear. eg. Marts, Abattoirs etc.
- Enter the date and select which species you are recording data for (sheep or goats)

Step 4 — Add Tag Information

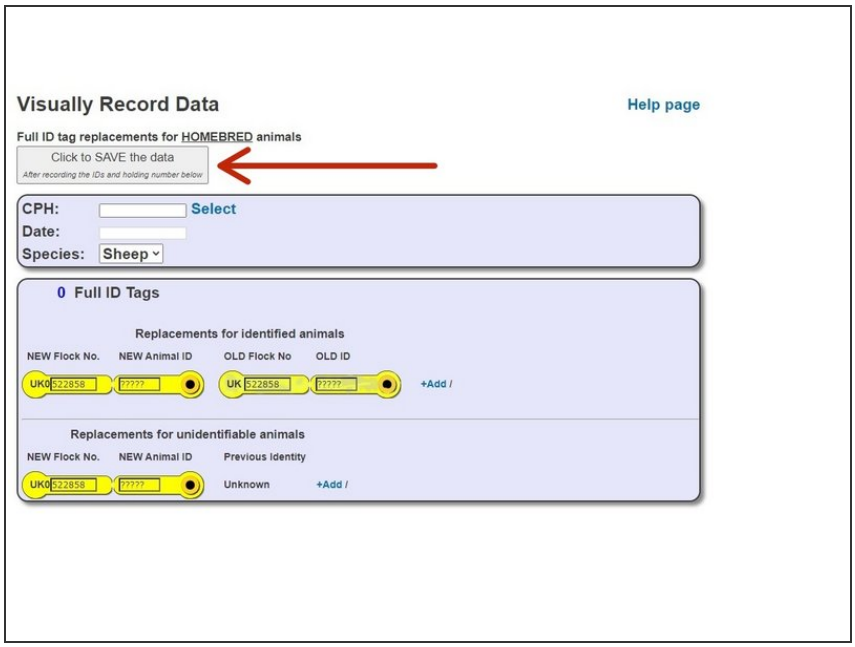

- Enter the NEW and OLD IDs if they are replacement tags for Identifiable animals
- If you have retagged unidentifiable animals, then enter the new tag IDs in the bottom box

Step 5 — Adding more tags

- Click +Add if there is more than one full ID tag to enter

Step 6 — Save

- Click the button indicating to Click to SAVE the data, at the top
