Creating a New Jira Project

Written By: Brendon Welch

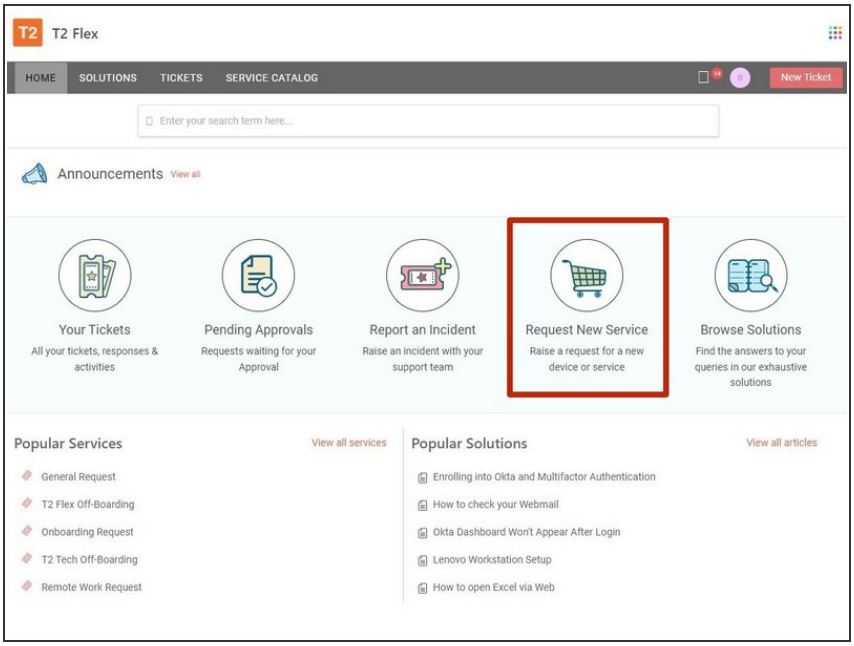

Step 1 — Creating a New Jira Project

While viewing your T2 dashboard:

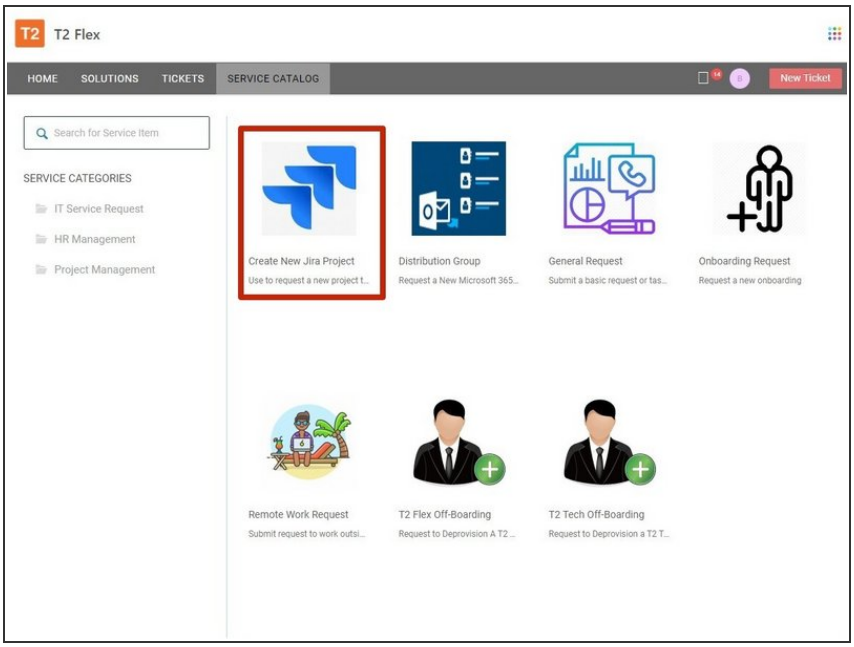

- Click **Freshservice - Helpdesk**

Step 2

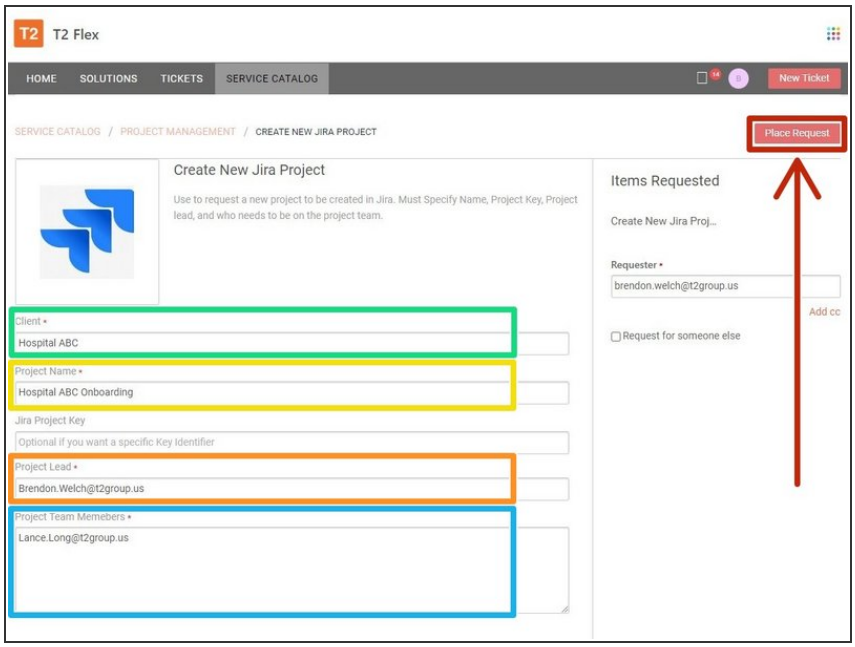

- Click **Request New Service**

Step 3

- Click **Create New Jira Project**

Step 4

- **Complete the New Jira Project form:**
- Enter the **Client**
- Enter the **Project Name**
- Enter the **Project Lead**
- Add all of your **Project Team Members**
- Click **Place Request**

⚠ ***Once the request has been submitted, you will receive a confirmation email of the request and a second email once the project has been added to Jira.***
