Okta Verify Desktop Application Setup

Written By: Brendon Welch

Step 1 — Okta Verify Desktop Application Setup

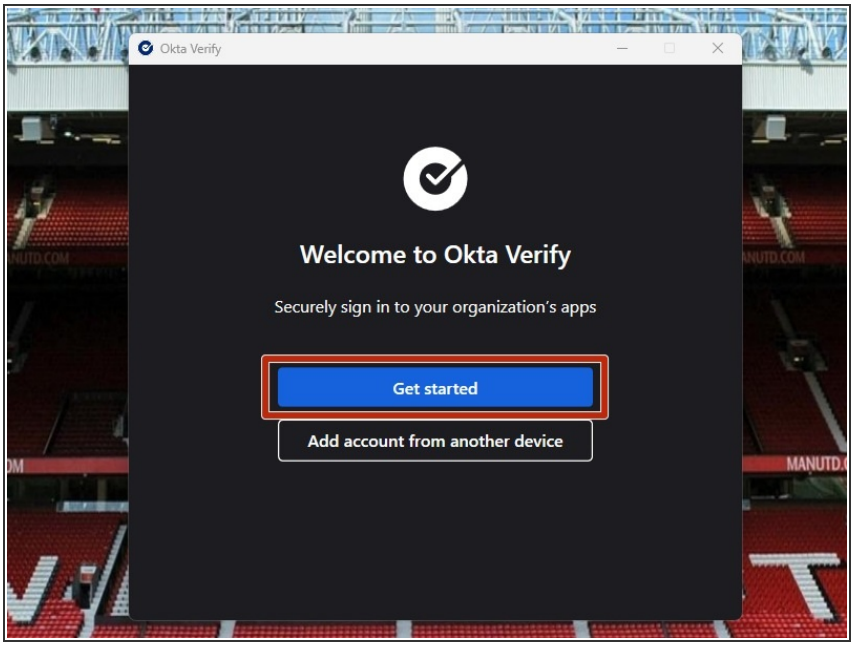

⚠ **Okta Verify will be pushed to your computer through your organization.**

To open the Okta Verify application:

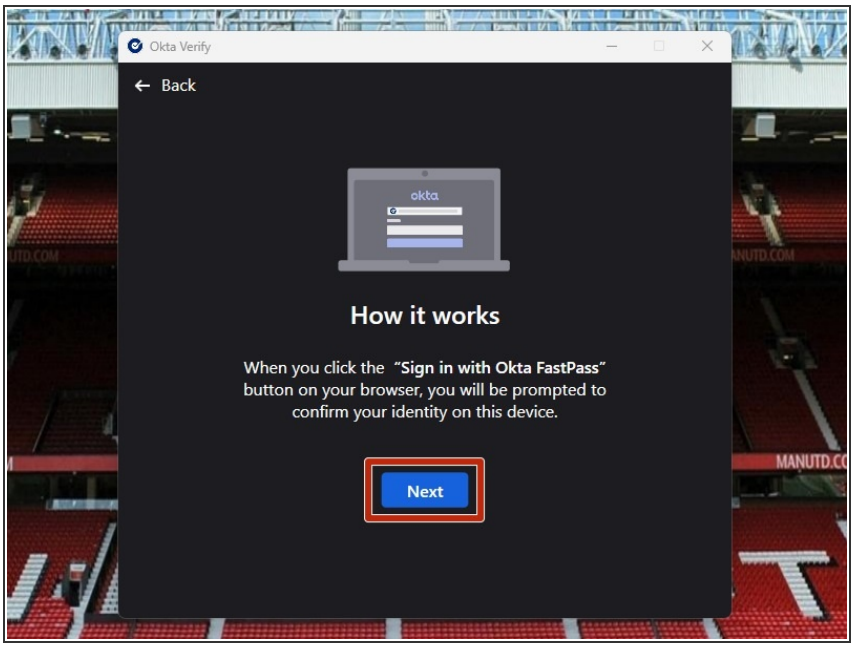

- Click the **Windows Start button**
- Type **Okta Verify** in the search window
- Click **Open**

Step 2

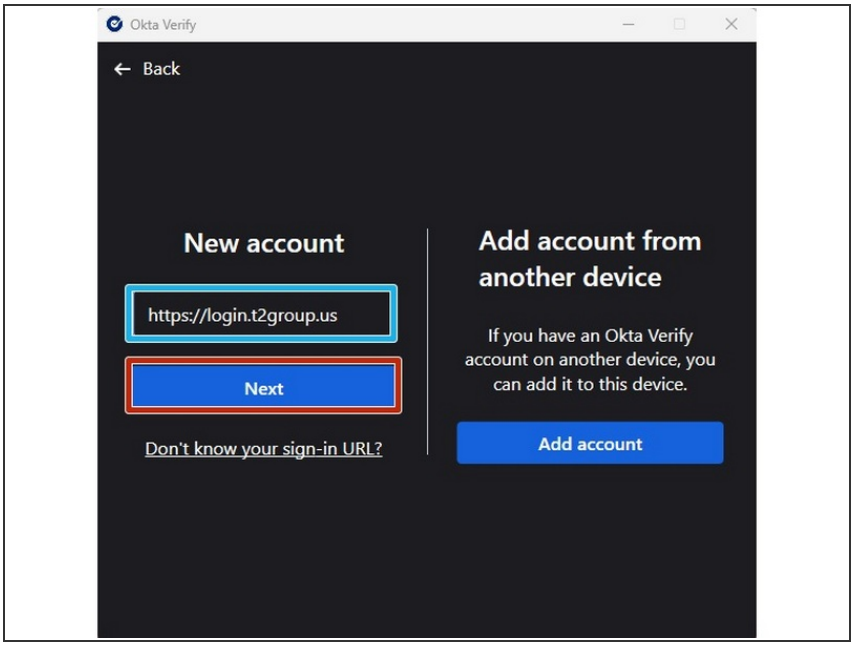

- Click **Get started**

Step 3

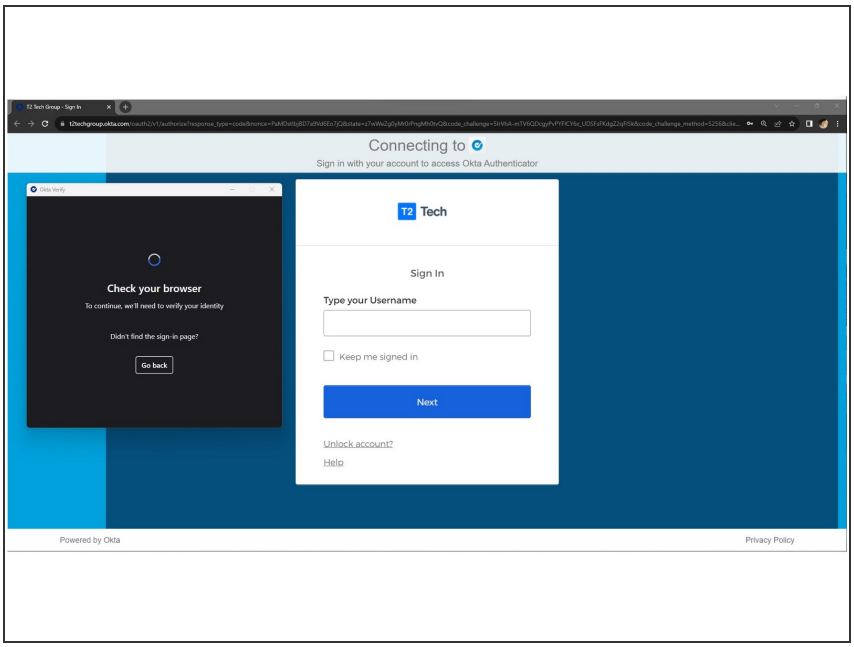

- Click **Next**

Step 4

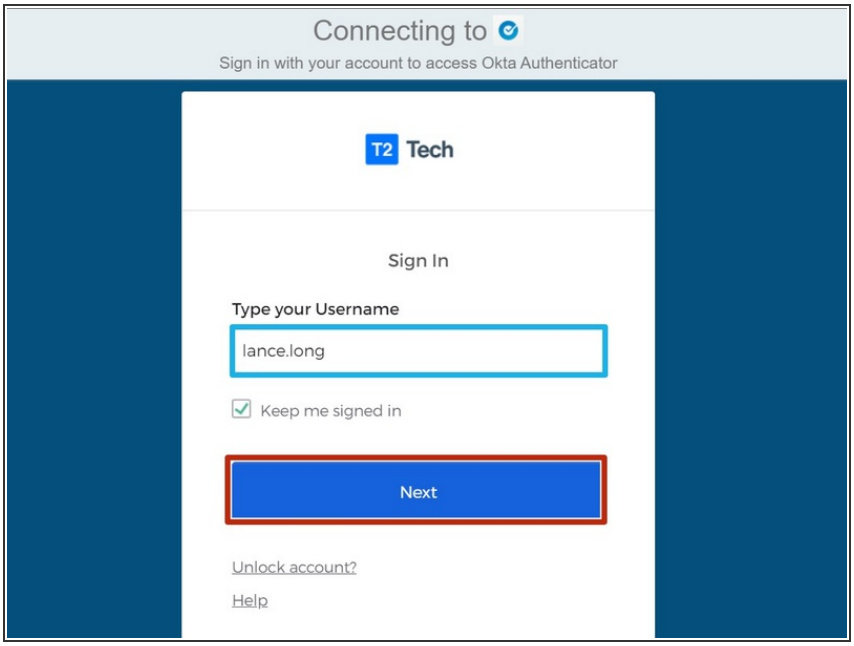

- Ensure the displayed URL is **https://login.t2group.com**
- Click **Next**

Step 5

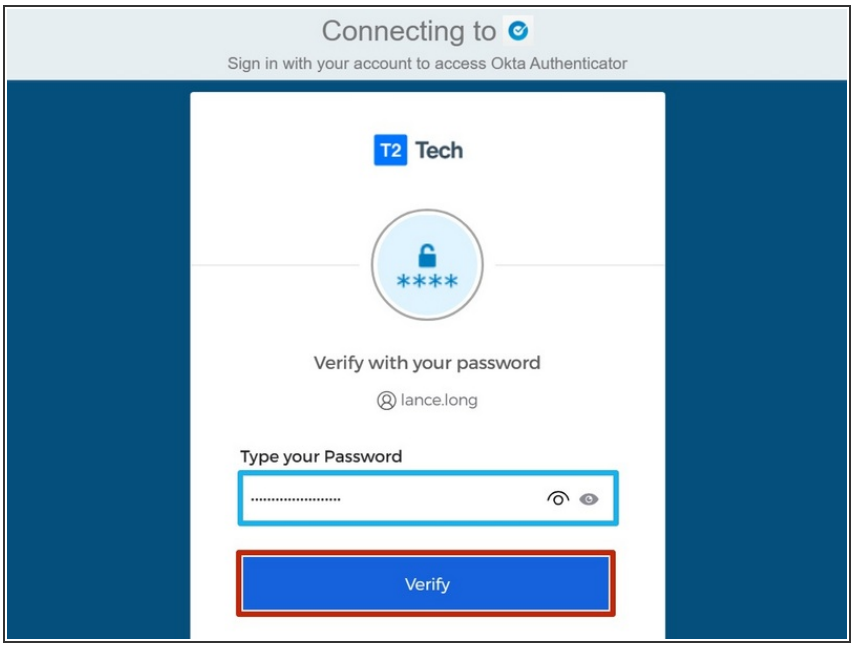

Your web browser will open automatically to the T2 Okta Sign In screen

Step 6

- Enter your Okta **Username**
- **Username:** FirstName.LastName
- Click **Next**

Step 7

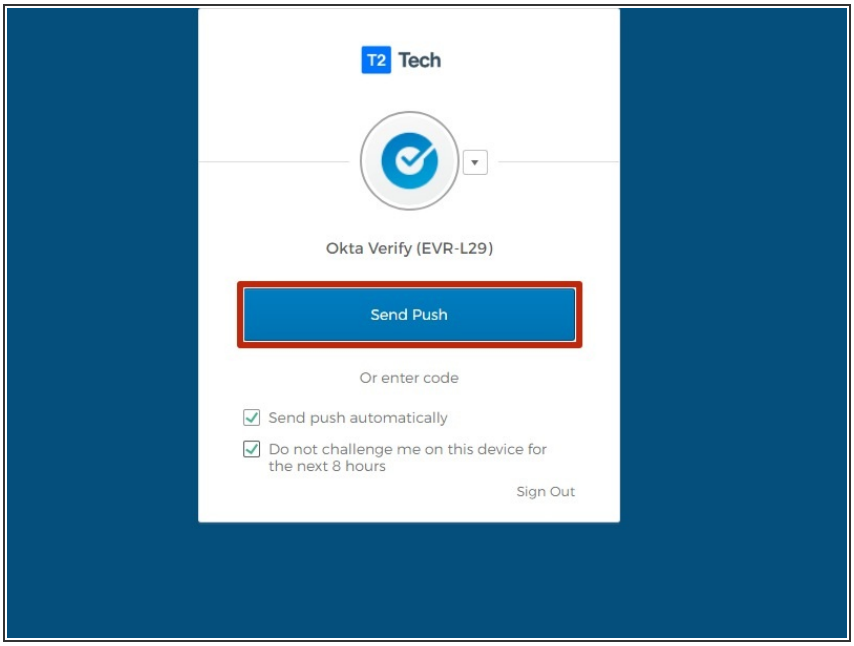

- Enter your **Password**

ⓘ *Your password contains at least 15 characters and no parts of your username.*

- Click **Verify**

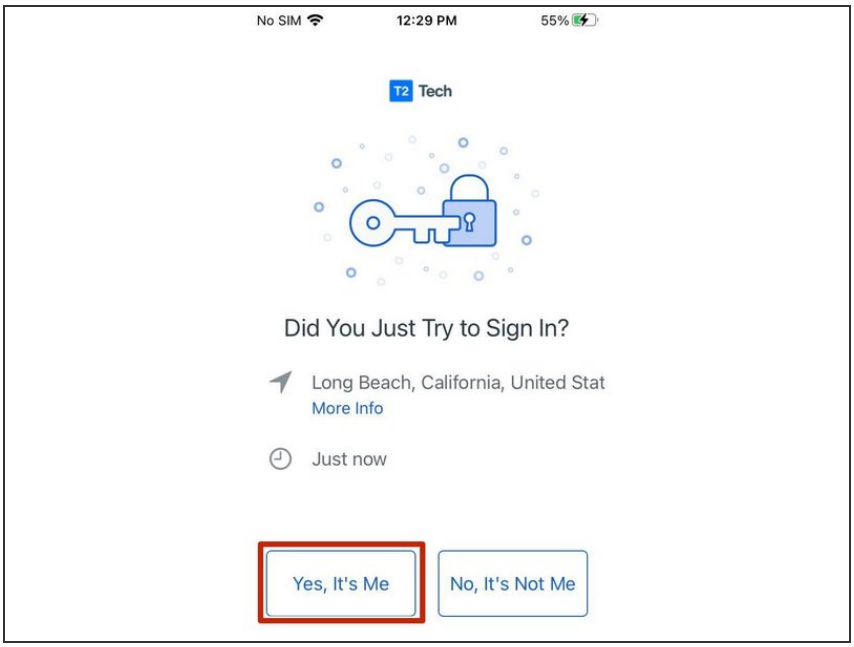

Step 8

⚠ *Okta will send a push notification to the mobile device you bound to your T2 account.*

- Click **Send Push**

Step 9

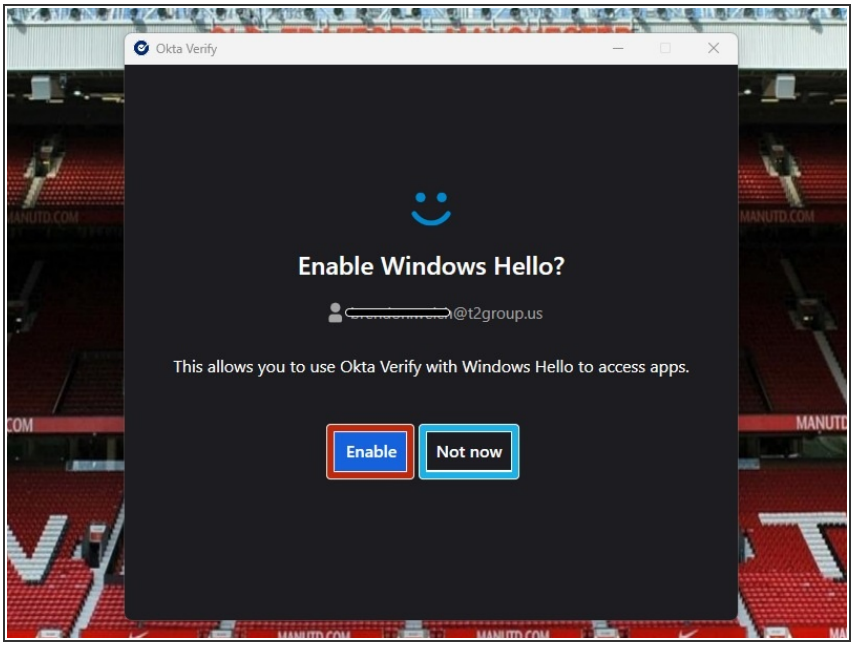

If you sent a Push Notification:

Check your mobile device for a notification from Okta Verify.

- Select **Yes, It's Me**

Step 10

If you were provided a computer by T2, Windows Hello must be enabled.

Windows Hello will use your camera to verify your identity.

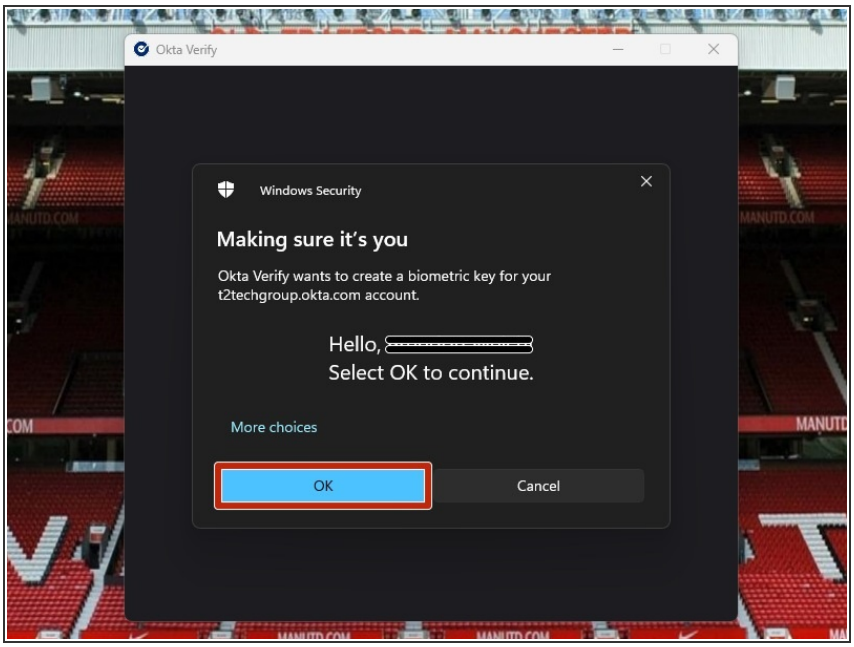

- Click **Enable**

If you are using your own computer, Windows Hello is not required, but is still recommended.

If you do not want to enroll in Window Hello:

- Click **Not now**

Step 11

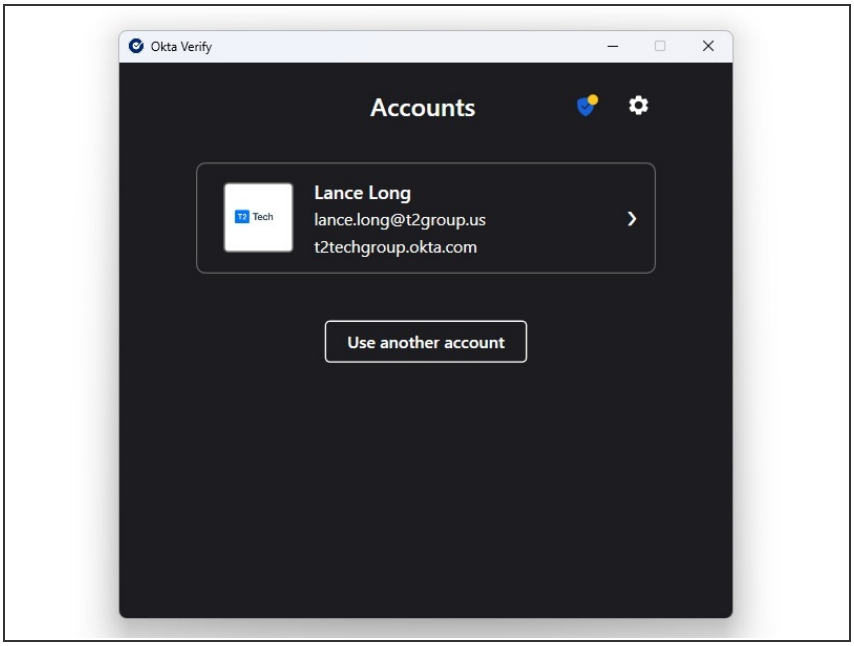

If you enabled Windows Hello:

Windows Hello will use your camera to verify your identity.

- Click **OK**

Step 12

Your account will display in the Okta Verify application once the setup is complete.
