Windows 11 - First Boot - Company Owned Device

Written By: Brendon Welch

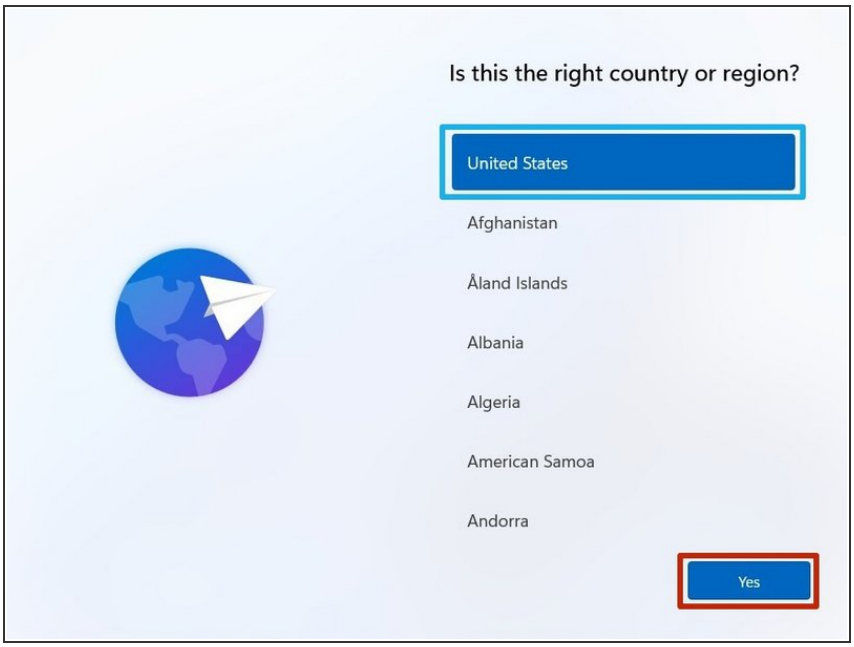

INTRODUCTION

Employees who are sent a Lenovo Mini PC and monitors must sign into their computers for use with T2. This includes using your Okta Verify account to authorize the use of your PC.

- Enter your **Okta Password**
- Click **Verify**

Step 8

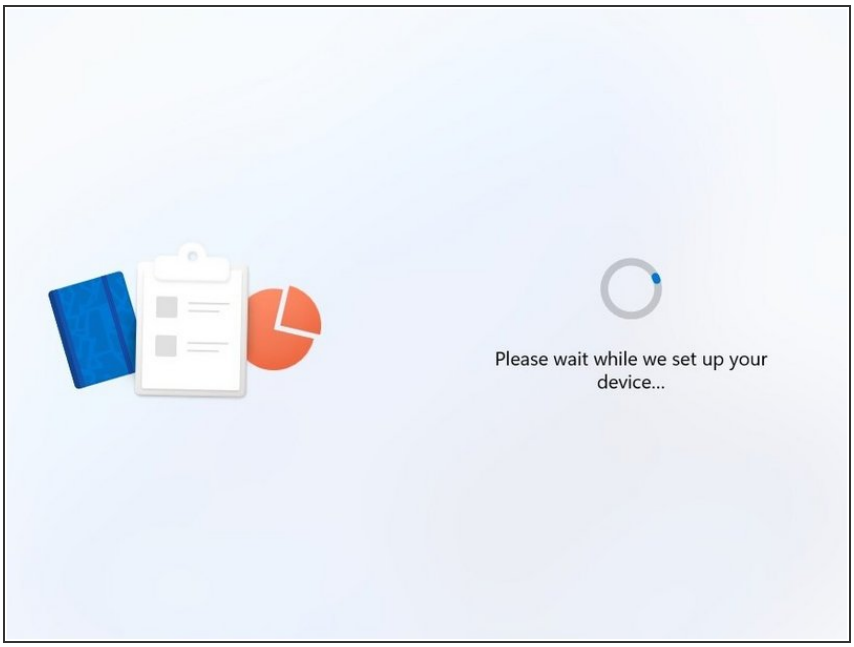

- **Select** Get a push notification

ⓘ *Check your mobile device for a push notification from Okta and select the correct number.*

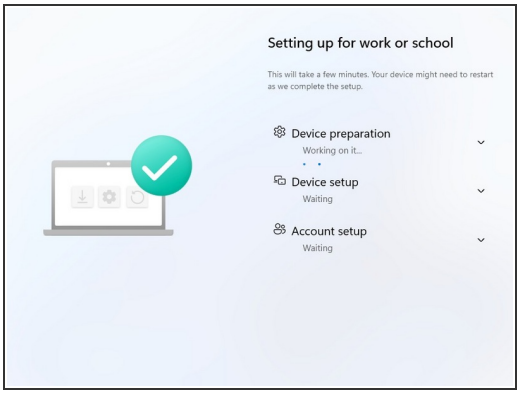

- Select the **Number** in the Okta app

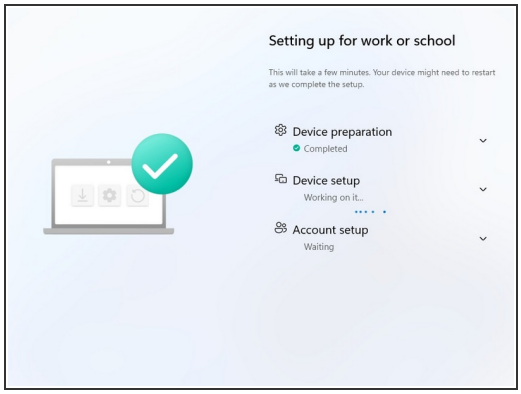

Step 9

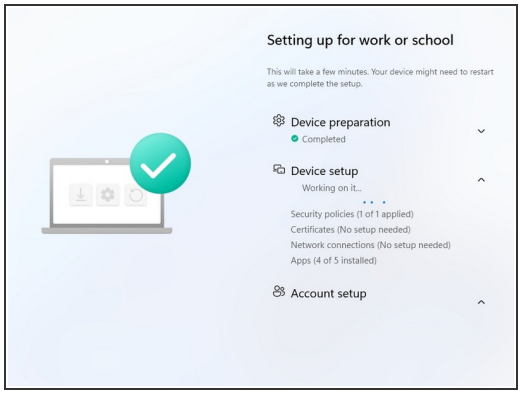

Once verified, your PC will continue the setup automatically.

Step 10

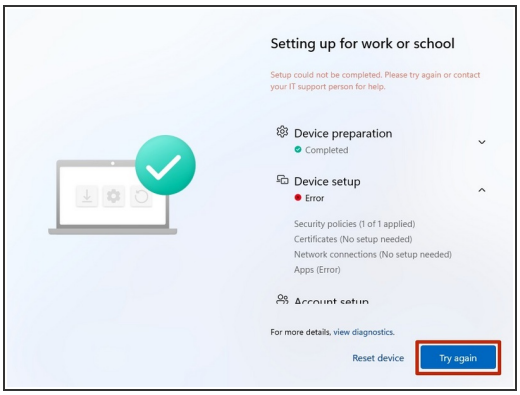

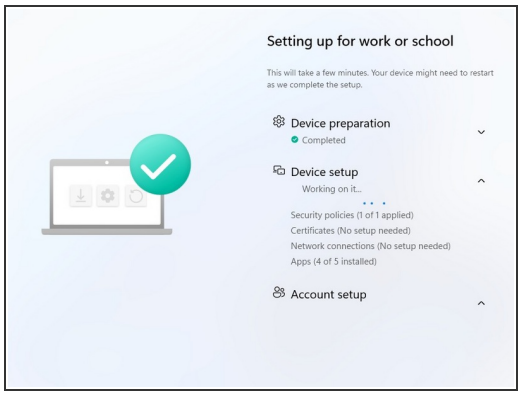

Your computer will install all of the necessary applications and security updates automatically

Your computer will reboot after completing a section.

Step 11

⚠ **If you encounter an error during the device setup:**

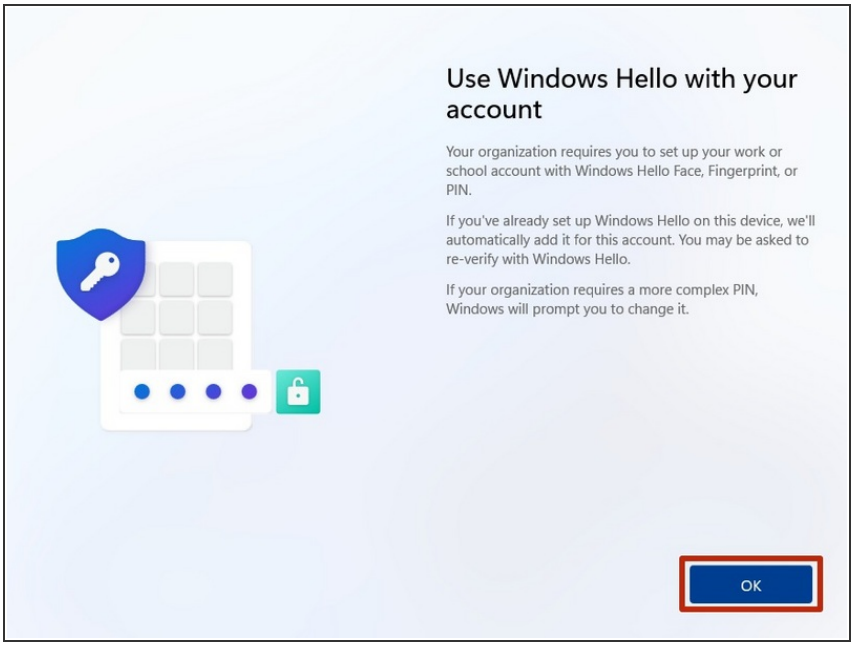

- Click **Try again**

⚠ **If you do not see progress in 10 minutes, manually power off your computer by holding the power button for 10 seconds.**

ⓘ **Setup will resume automatically.**

⚠ **Your computer will reboot after completing a section.**

Step 12

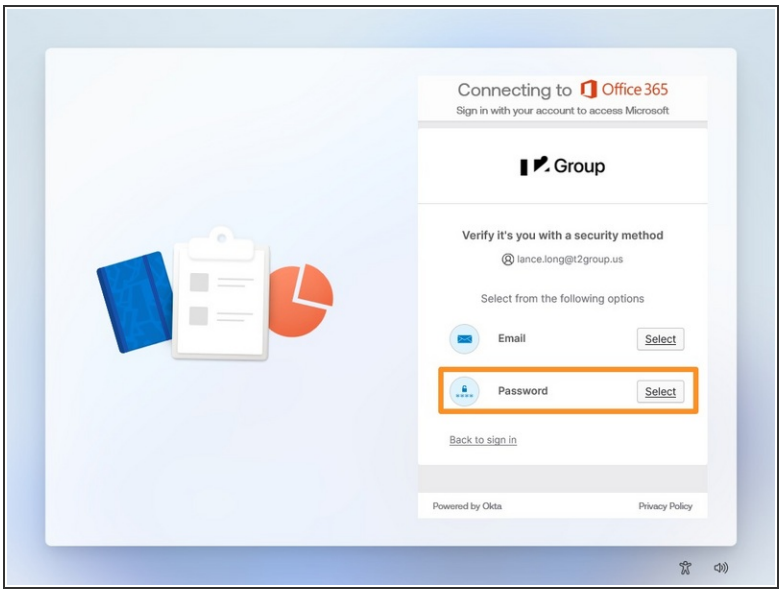

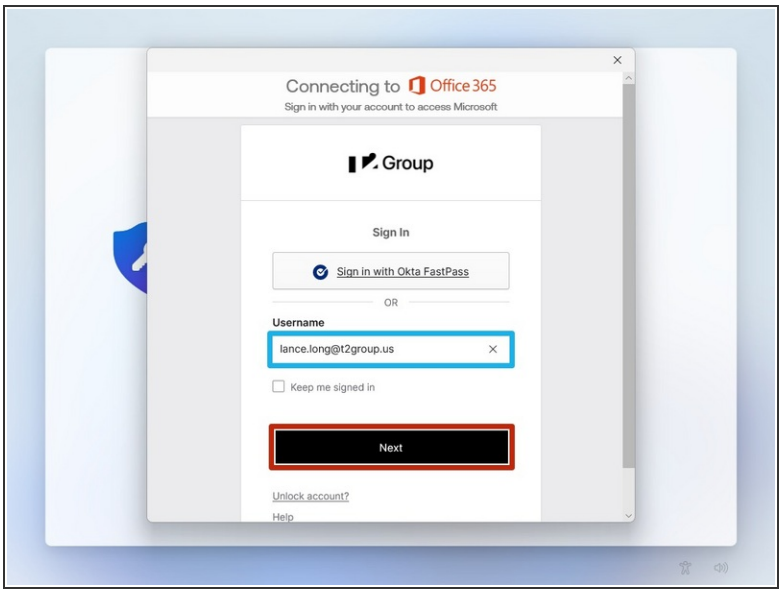

⚠ **You are required to set up Windows Hello Face and/OR Fingerprint, or PIN.**

- Click **OK**

ⓘ *Windows Hello Face is required.*

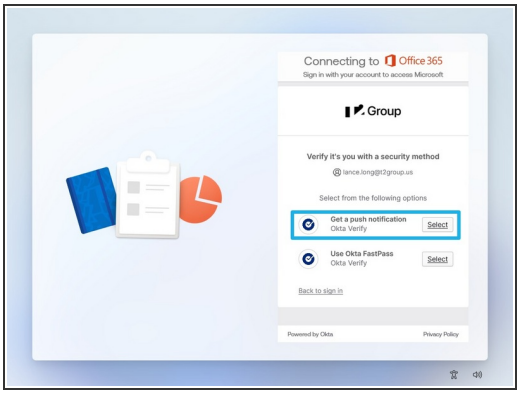

Step 13

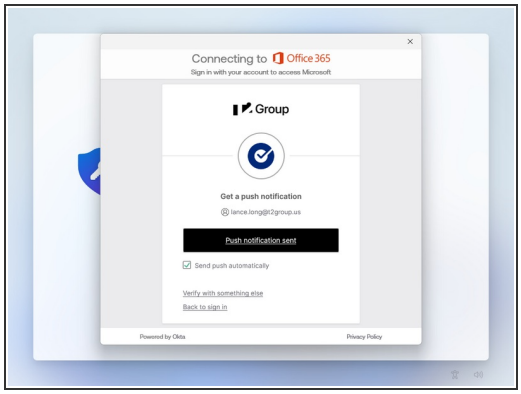

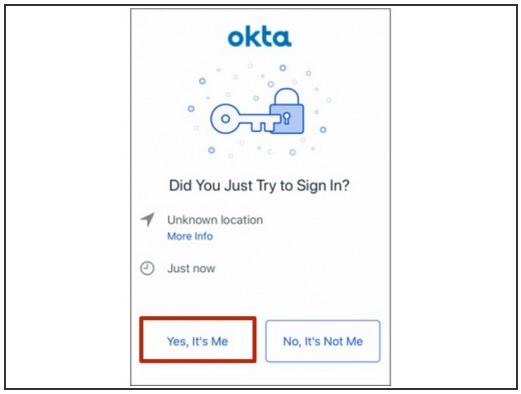

- **Select** Password
- Enter your **T2 Email**
- Click **Next**

Step 14

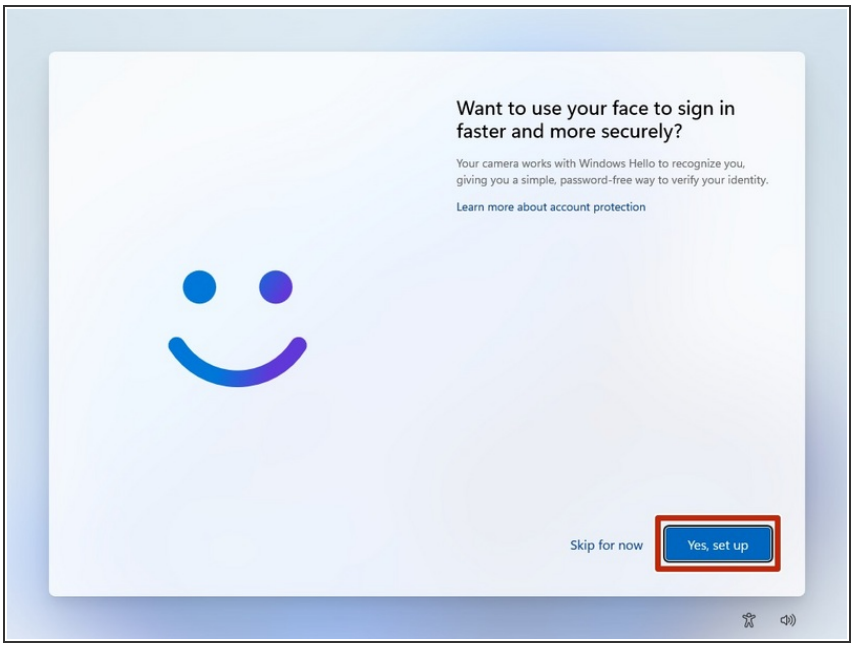

- **Select** Get a push notification

ⓘ *Check your mobile device for a push notification from Okta.*

- Select **Yes, It's Me**

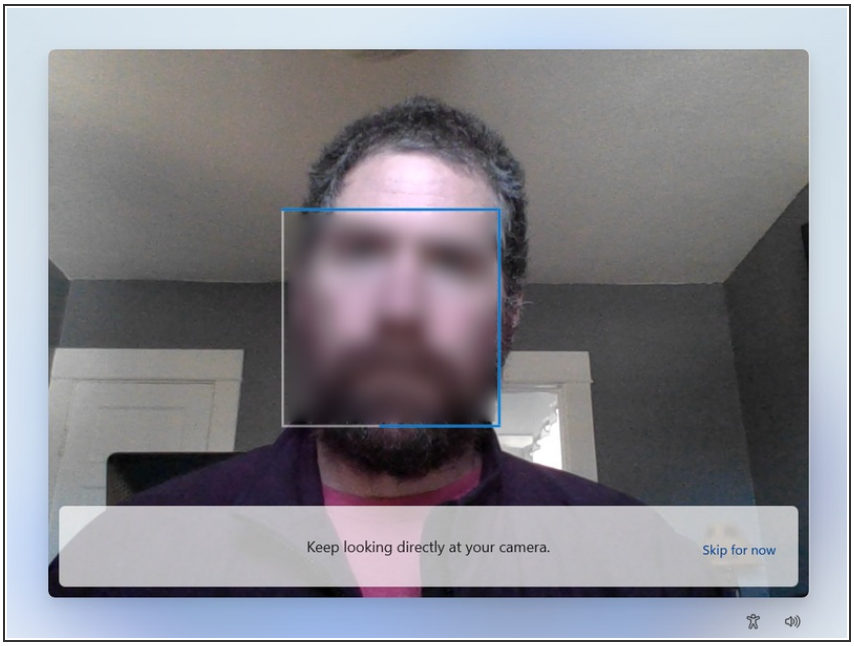

Step 15

⚠ **T2 requires Windows Hello.**

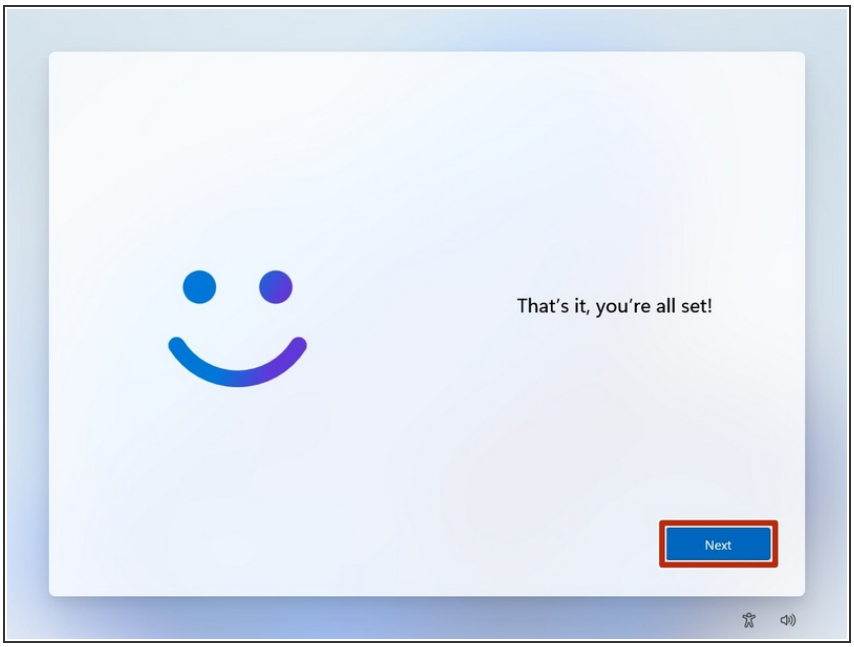

- Click **Yes, set up**

Step 16

⚠ **Look directly at your camera.**

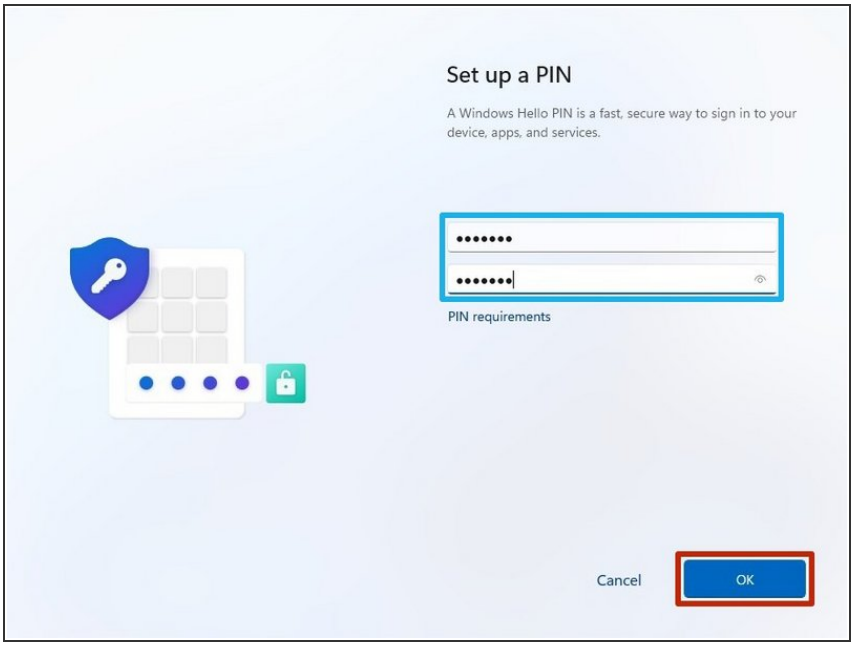

Step 17

Once Windows Hello has created your Face ID:

- Click **Next**

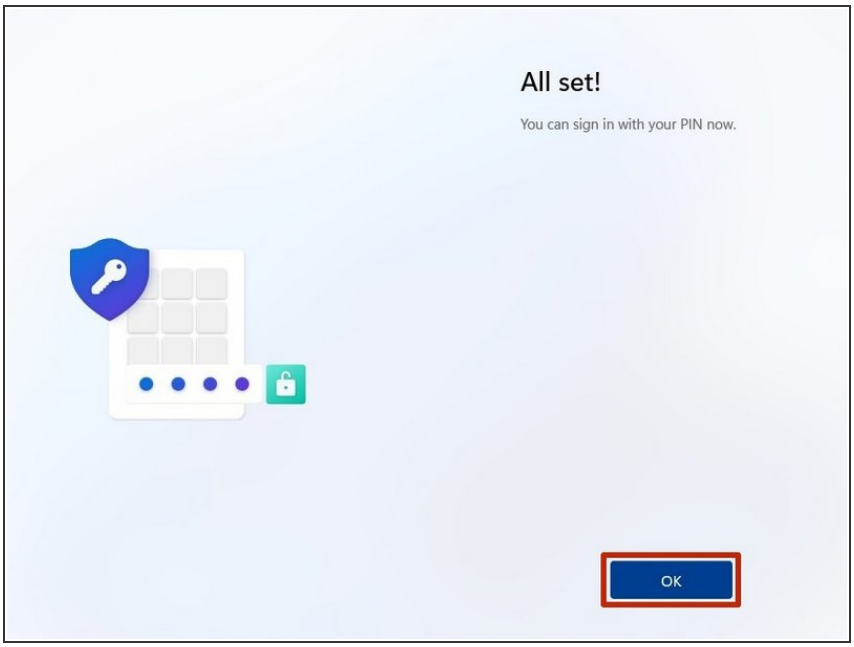

Step 18

T2 requires that your PIN is at least 6 digits long and cannot be a number pattern (such as 123456 or 111111)

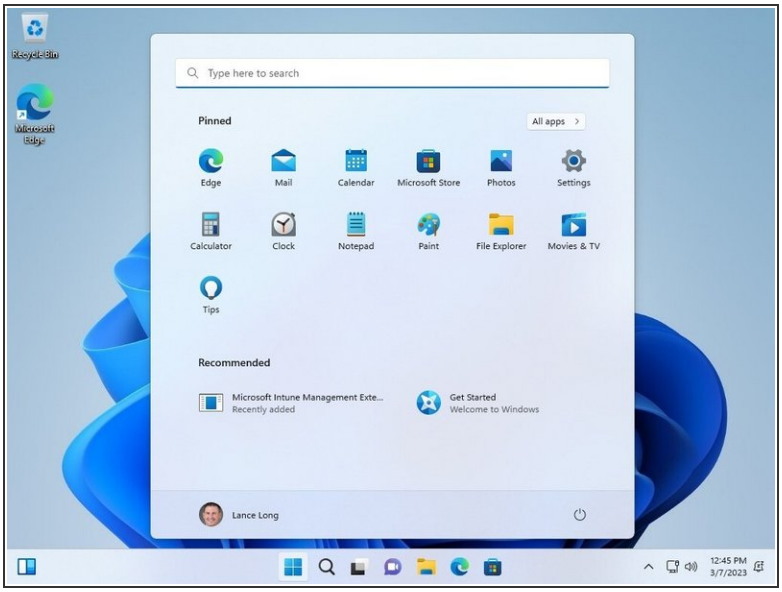

- Enter your desired **PIN**
- Confirm your **PIN**
- Click **OK**

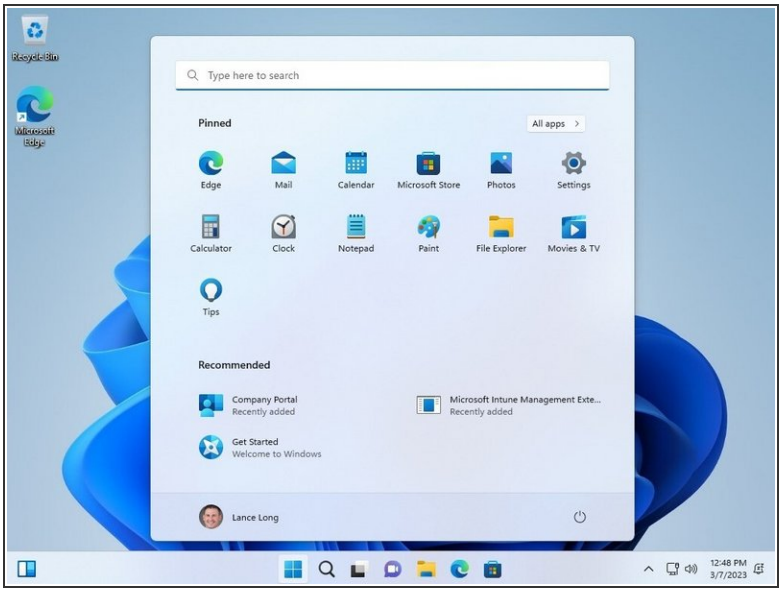

Step 19

- Click **OK**

Step 20

⚠ **T2 will install all of the required programs in the background via Microsoft Intune.**

ⓘ *It can take 1 hour or more for all of the applications to be installed.*

It is recommended to leave your PC on over night to allow all programs to be installed and updated.
