Step 1 — Lenovo Mini PC - Unboxing

⚠ Be sure to open your PC right side up, and be careful when using a sharp blade.

- **Cut the tape** on the top of the box

Step 2

⚠ To prevent damage to your PC, be sure to remove the items in order.

- Remove the **Mini PC**
- Remove the **Keyboard**
- Remove the **Power Supply and Accessories**

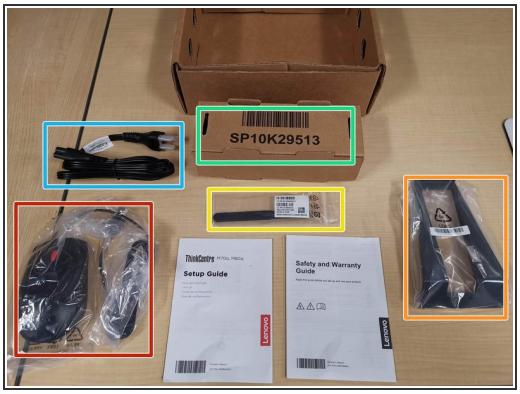

Step 3

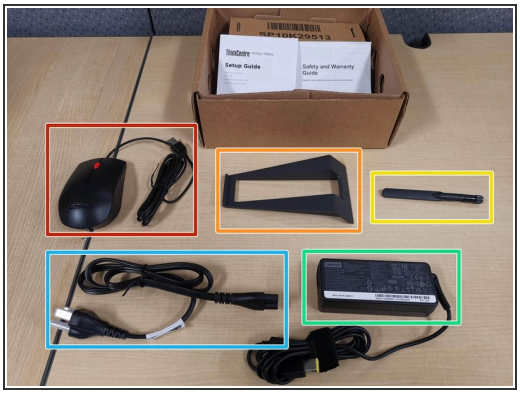

- Be sure to have enough space to set up all items. Lay all components out to ensure a simple setup.
- Open the **Power Supply and Accessories** box

Step 4

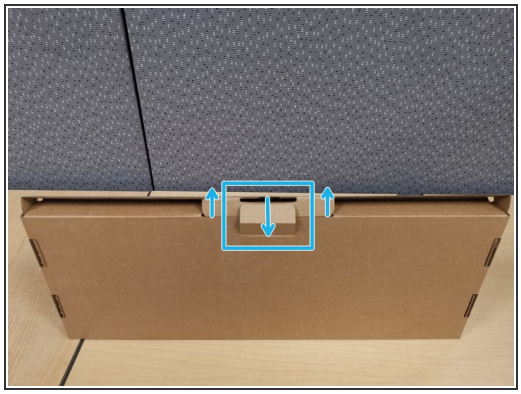

Unwrap each item, and lay them out. Put the power supply box and plastic wrap back in the box.

Refer to this key to identify each item.

- **Wi-Fi Antenna**
- **Mini PC Power Supply**
- **Mini PC Stand**
- **Mini PC Power Supply AC Cable**
- **USB Mouse**

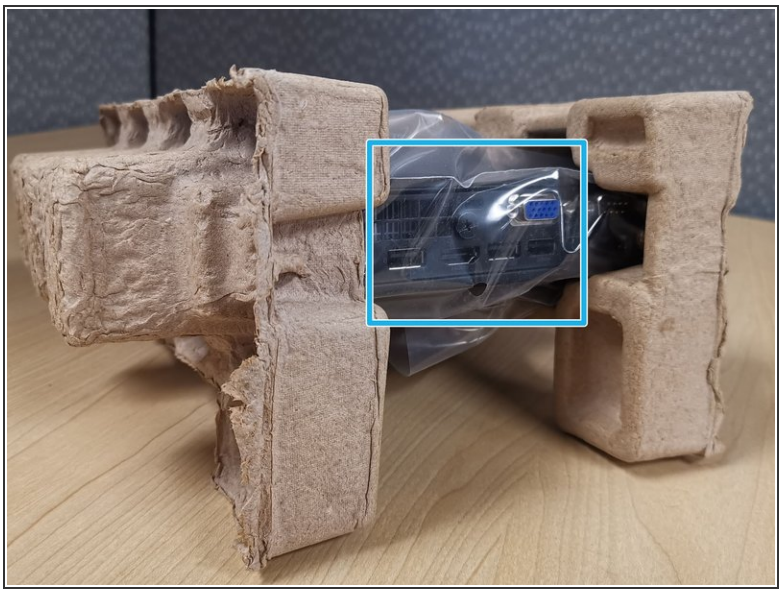

Step 5

Open the keyboard box, and carefully remove the plastic from the keyboard.

- **Pull out the Tabs** in the center of the box
- **Put the plastic wrap back in the keyboard box**

Step 6

- **Hold on to the Mini PC**
- **Remove the cardboard sides**

Step 7

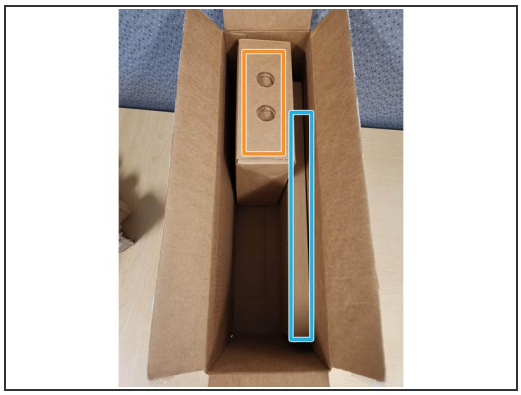

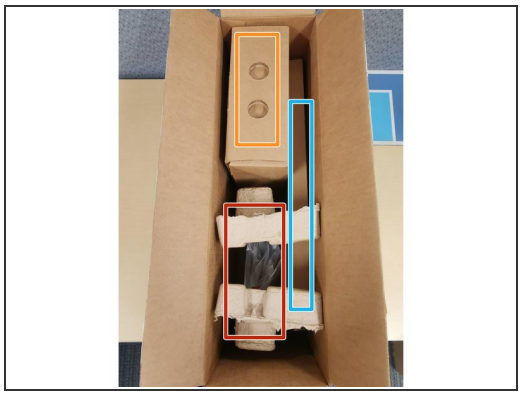

⚠ Be careful when using a sharp blade.

- **Cut the Security Seal**
- **Remove the Mini PC** from the plastic

Step 8

- Put the empty component's boxes and packaging back into the PC's box.
- Replace the **Power Supply and Accessories box**
- Replace the **Keyboard box**
- Replace the **Mini PC packaging**

Step 9

- ***Keep all items organized and laid out.***
