Lenovo Mini PC - Repackaging

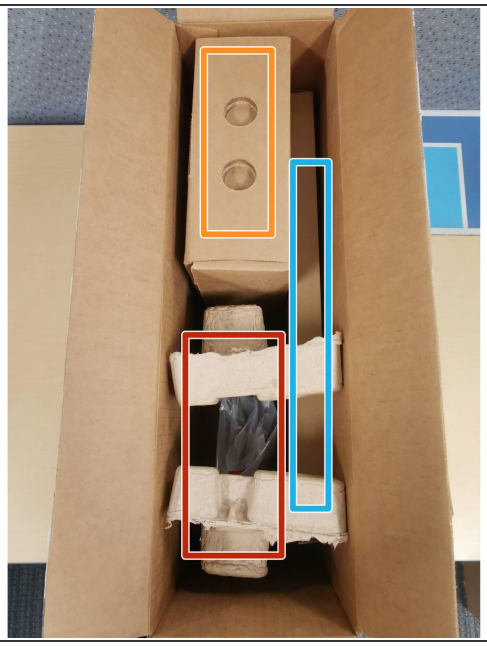

Written By: Brendon Welch

INTRODUCTION

In the event that you need to send your equipment back to T2, you will need to repackage the Mini PC in the original box and packaging to prevent damage when shipping.

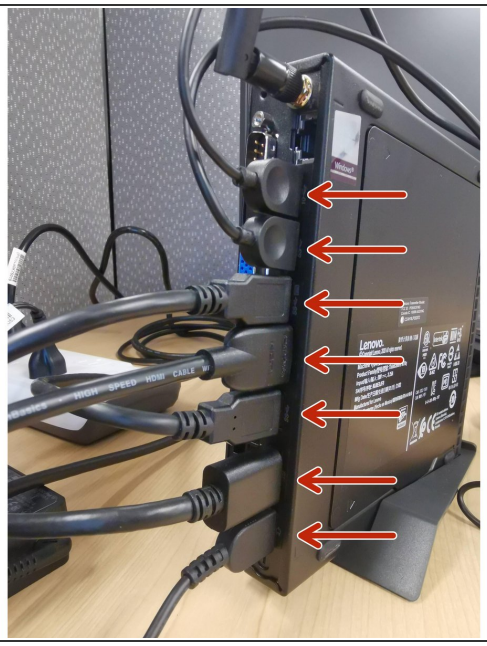

Step 1 — Lenovo Mini PC - Repackaging

ⓘ Remove all of the packaging materials from the Mini PC box.

- **Power Supply and Accessories box**
- **Keyboard box**
- **Mini PC packaging**

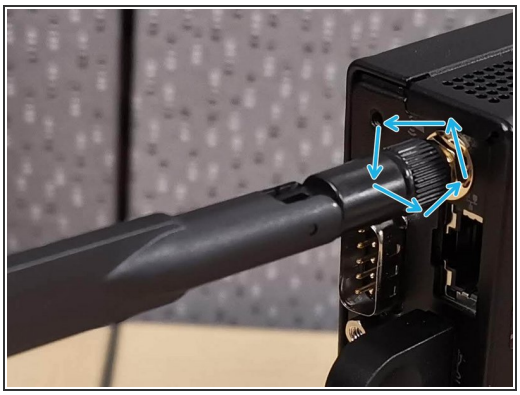

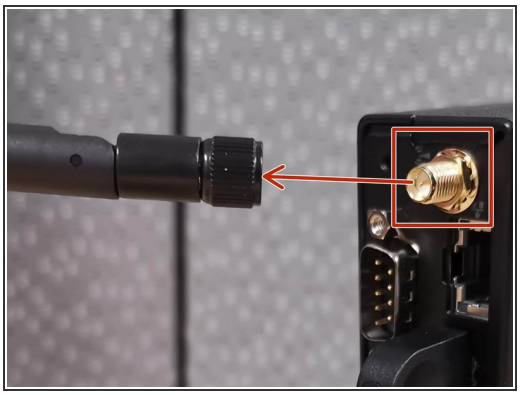

Step 2

⚠ All of the cables connected to the Mini PC need to be disconnected. They can be pulled out with little to no force.

- **Disconnect <u>All</u> the cables from the Mini PC**

Step 3

- Straighten the **Wi-Fi Antenna**
- **Twist the end of the Wi-Fi Antenna** counter clockwise to unscrew it
- Pull the **Wi-Fi Antenna** out of the jack

Step 4

- Pull the **Mini PC** from the base

Step 5

- Disconnect the **AC cable from the Mini PC power supply**

Step 6

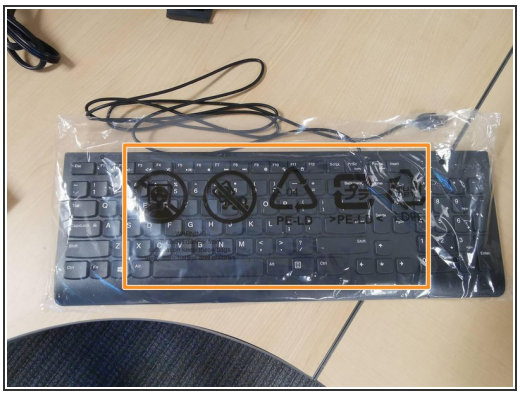

- Replace the **plastic wrapping for the Mini PC**
- Fold any excess plastic so it is wrapped tight.
- Slide the **cardboard packaging material** to the sides of the Mini PC

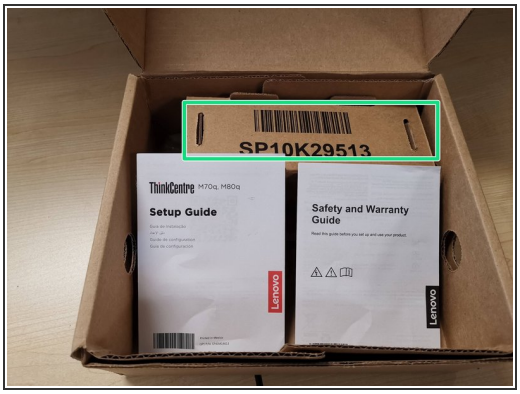

Step 7

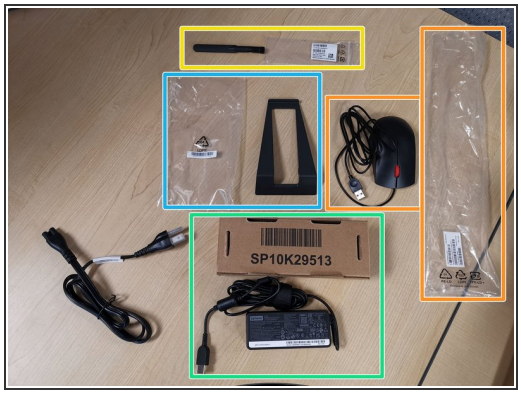

- [x] Open your keyboard box.
- Remove the **plastic cover**
- Replace the **plastic cover on the keyboard**
- Place the **keyboard into the box**
- Tuck the **cable under the inner lip**
- [x] Close the keyboard box.

Step 8

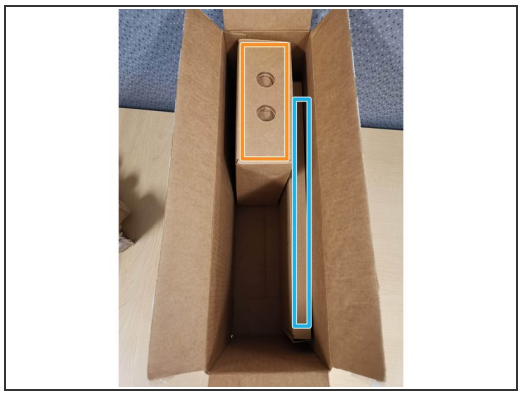

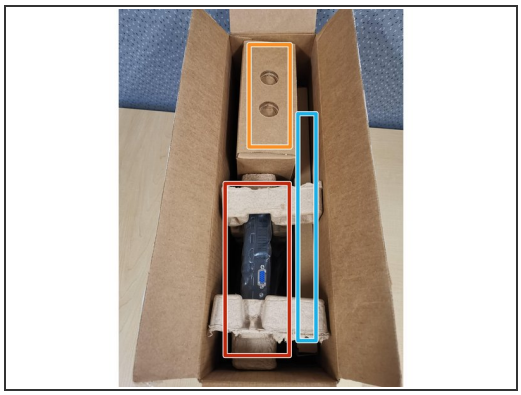

- [ ] Open the accessories box.
- [ ] *Replace the power supply into its box and plastic wrap for each item.*

- **Power Supply**
- **Wi-Fi Antenna**
- **USB Mouse**
- **PC Stand**
- **Replace all items into the accessories box**

- [ ] Close the accessories box.

Step 9

- Replace the components into the PC's box.
- Replace the **Power Supply and Accessories box**
- Replace the **Keyboard box**
- Replace the **Mini PC**

Step 10

- Add your **USB Webcam** to the box contents
- Add your **USB Headset** to the box contents

Step 11

- [ ] Close the box.
- Use **packaging tape** to seal the top
