# INTRODUCTION

To ensure your PC meets the minimum requirements, and your internet connection is fast enough to provide reliable performance, you will be required to run this system performance test.

## Step 1 — System Requirements Test

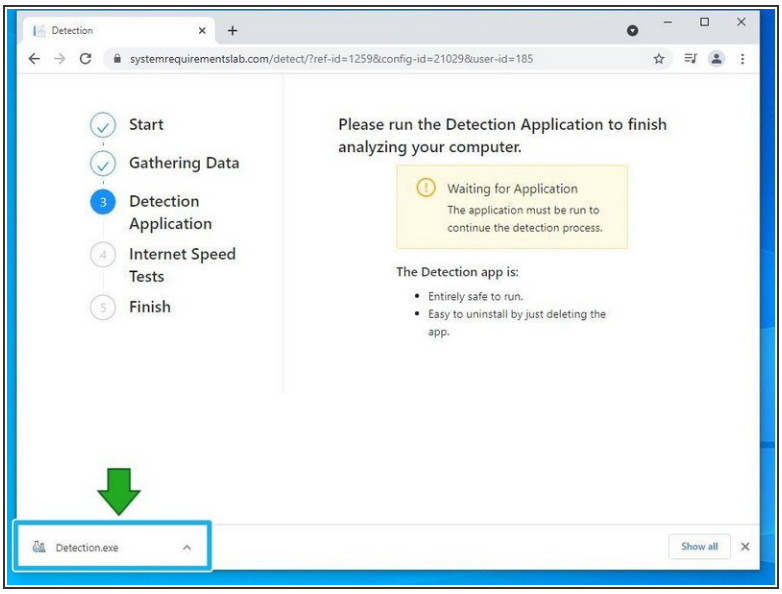

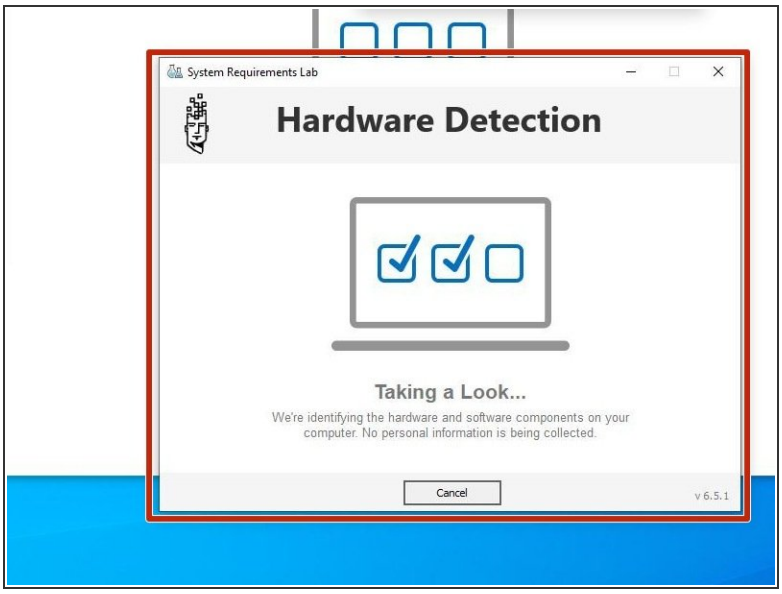

⚠ **Google Chrome is the only browser supported to run the System Requirements Test.**

**CLICK HERE to go to the System Requirements Test**

- Enter your **First Name**, **Last Name** and **Email Address**
- **Agree** to the terms of use
- Click **Run Tech Check**

## Step 2

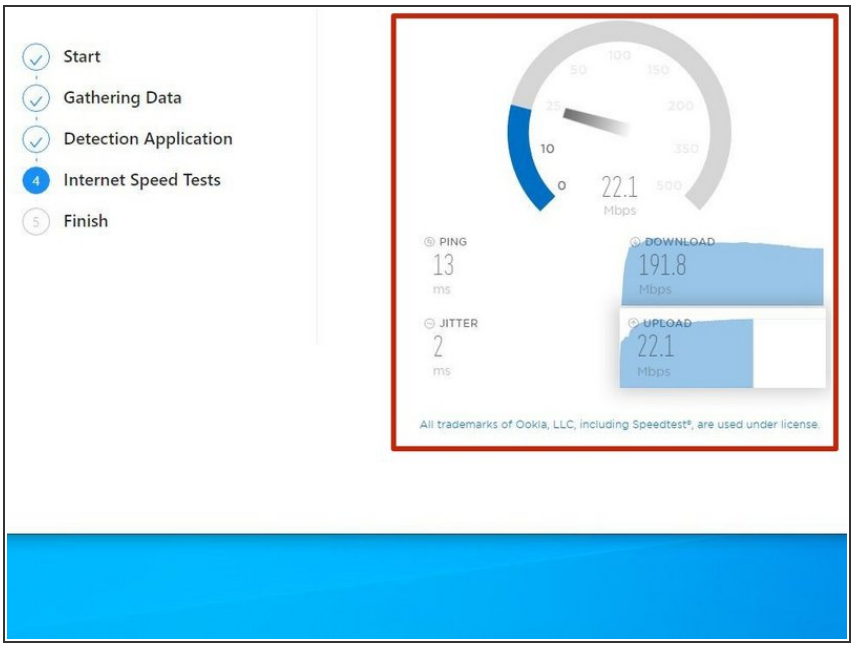

*Detection.exe will be downloaded automatically.*

**To run the detection tool:**

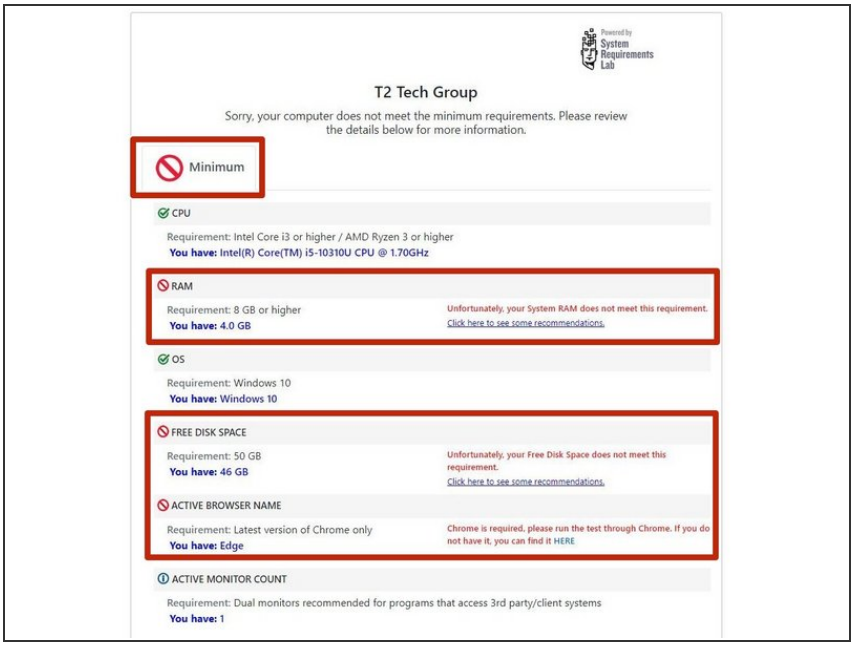

- Click **Detection.exe**
- The **Detection Tool** will run, then automatically close once completed

## Step 3

- The first test is an **Internet Speed Test**
- **Be patient while the other tests are performed in the background.**

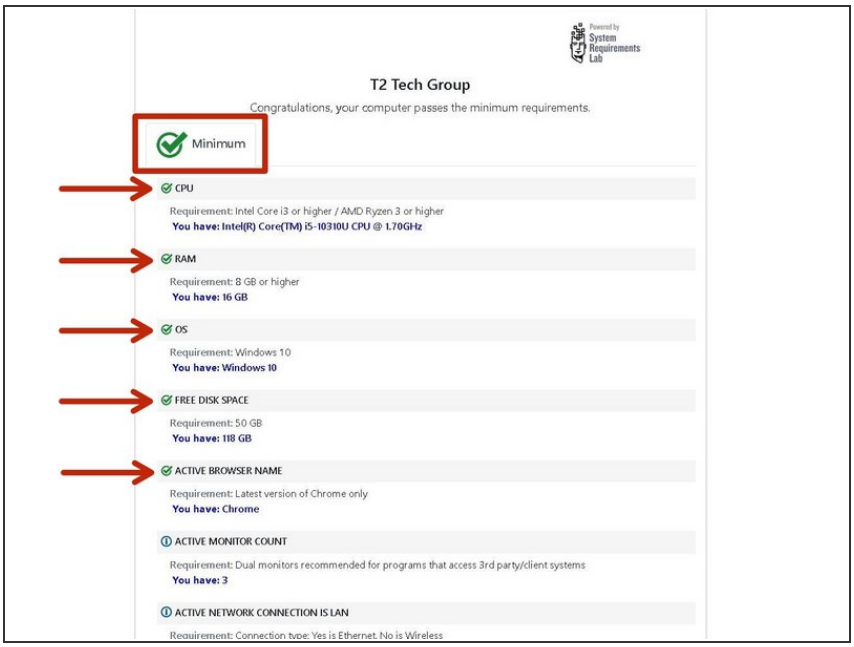

## Step 4

- **If any of the minimum requirements are not met:**
- **Failed minimum requirements** will appear in red

**This document was generated on 2024-05-17 06:51:19 PM (MST).**

## Step 5

**If your PC meets the minimum requirements:**

- **Minimum** will appear with a green checkmark
