TeamViewer Host - Uninstall

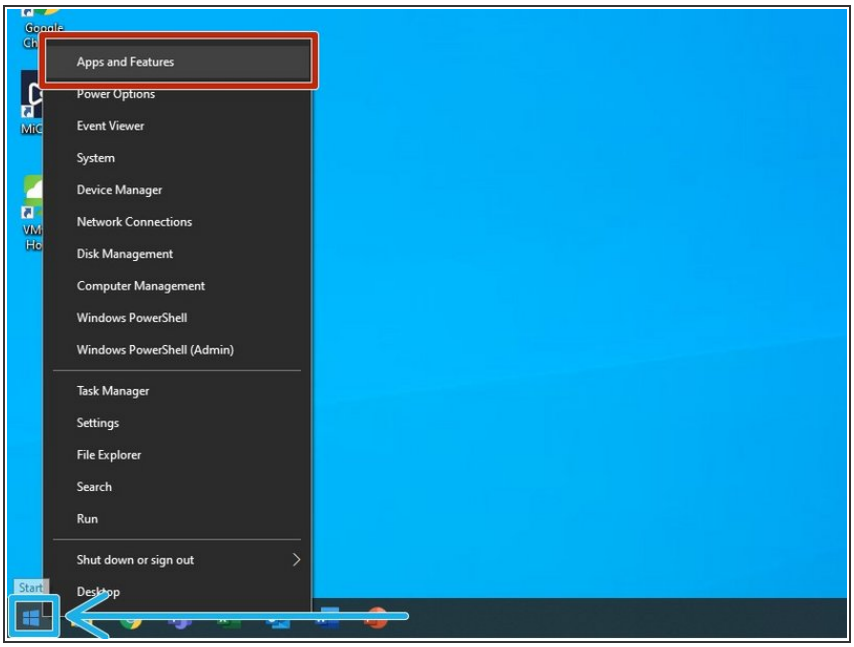

Written By: Brendon Welch

INTRODUCTION

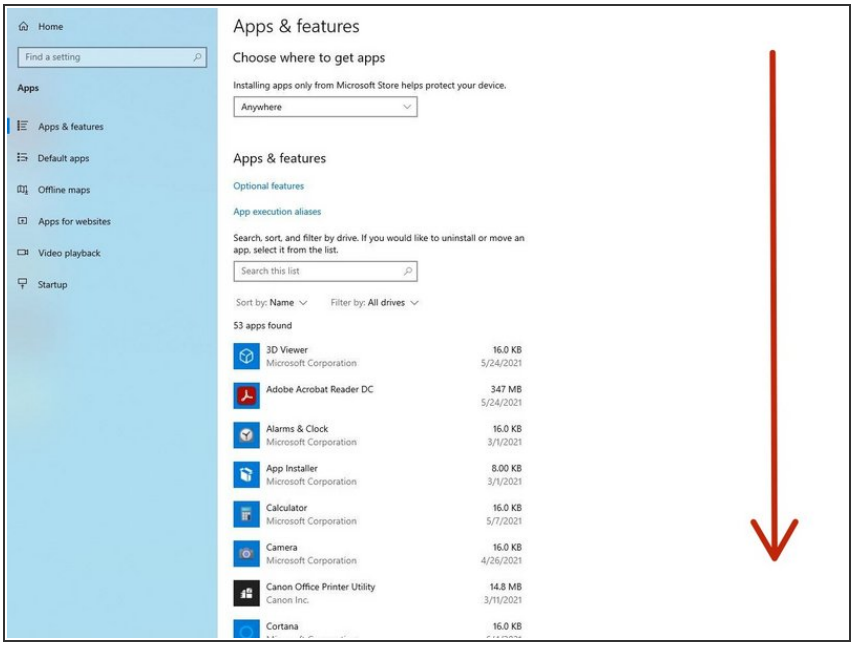

If you no longer work for T2 Tech Group and still own your PC, you will need to uninstall all of the applications and tools used by T2 Tech Group.

Step 1 — TeamViewer Host - Uninstall

- Right-click the **Start button**
- Click **Apps and Features**

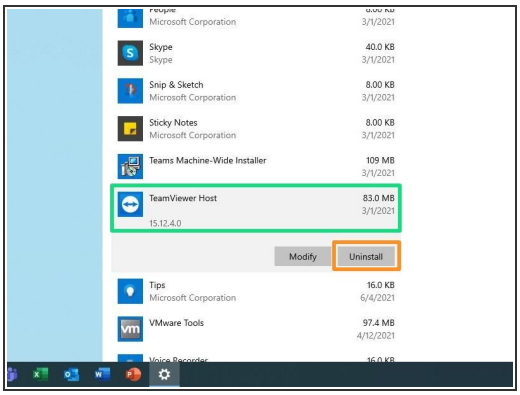

Step 2

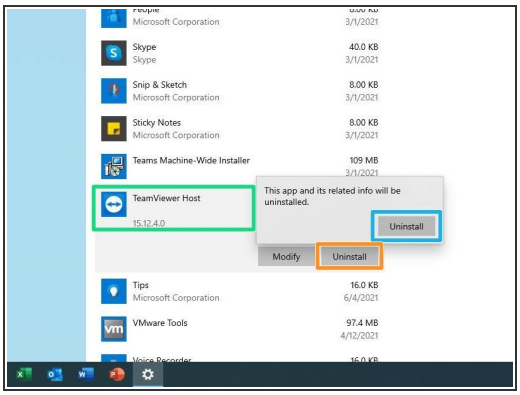

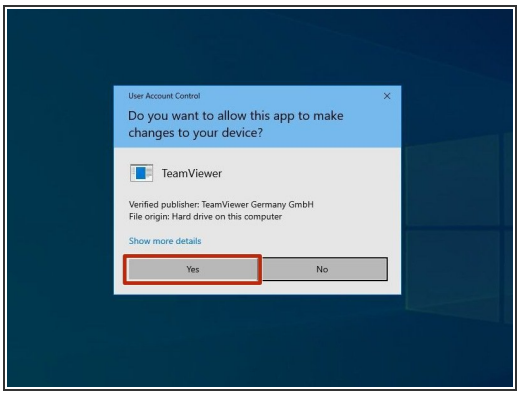

- **Scroll down**

© 2024

Step 3

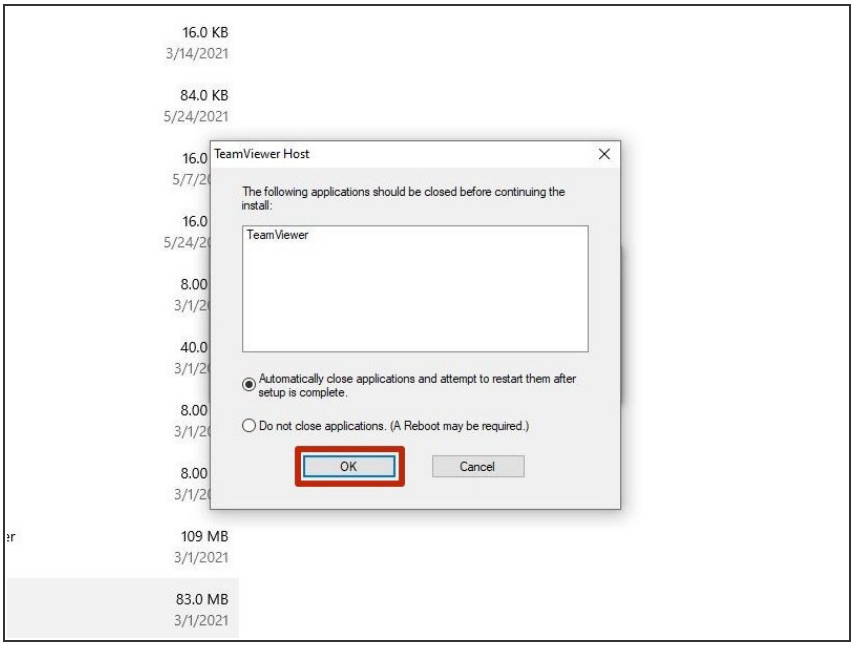

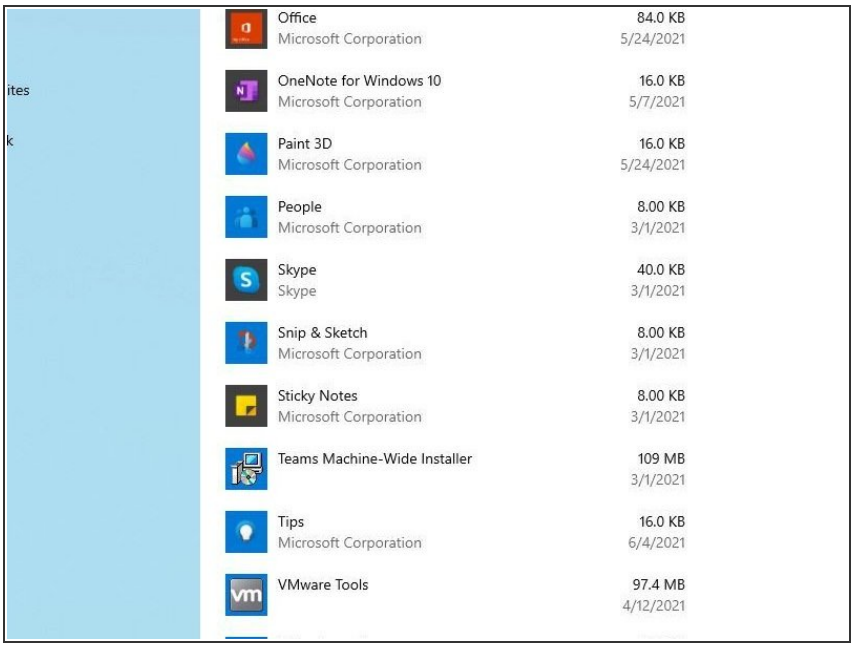

- Click on **TeamViewer Host**
- Click **Uninstall**
- Click **Uninstall**
- **A User Account Control message will appear requesting permission to make changes:**
- Click **Yes**

Step 4

- **If TeamViewer is running in the background a window will appear prompting you to automatically close TeamViewer.**
- Click **OK**

Step 5

⚠ Once the setup window disappears, TeamViewer Host will be uninstalled.
