Meraki PC Client - Installation (BloomVBE)

Written By: Brendon Welch

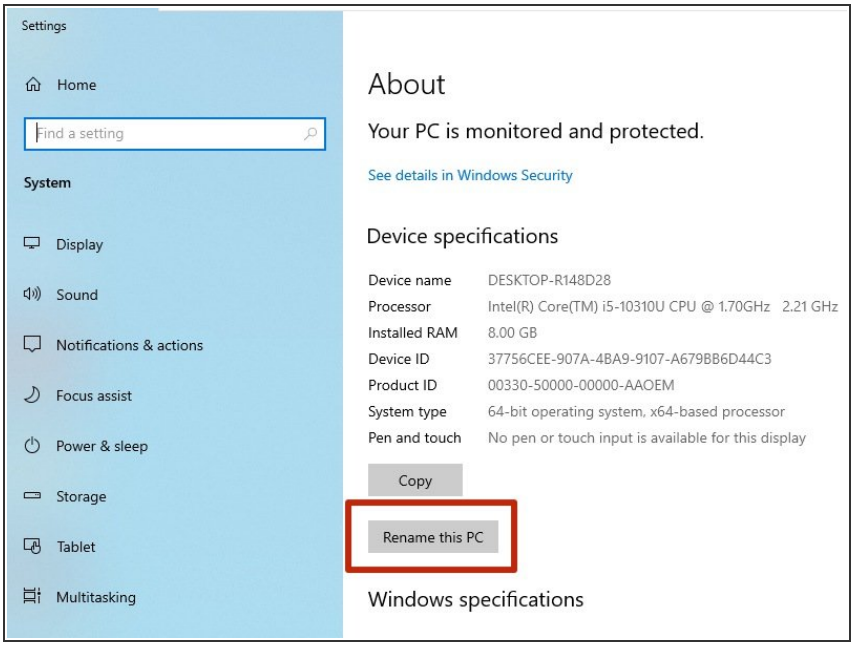

Step 1 — Meraki PC Client - Installation (BloomVBE)

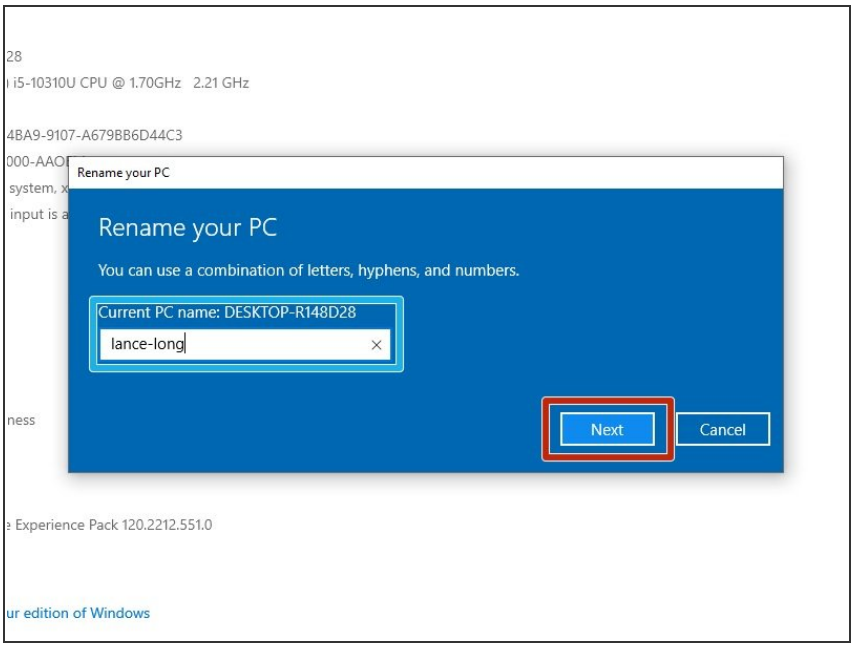

- Right-click the **Start** button in the taskbar
- Click **System**

Step 2

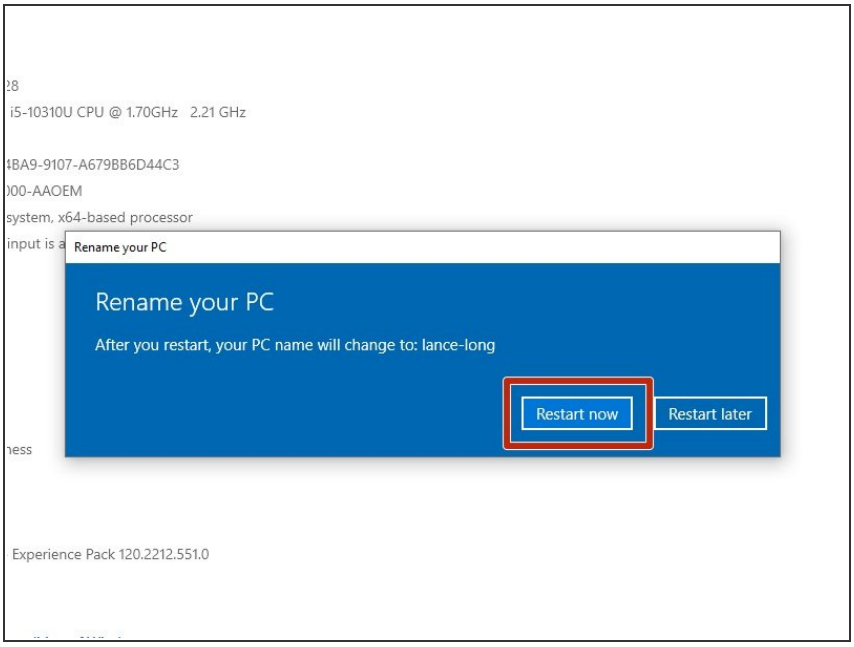

- Click **Rename this PC**

Step 3

- The PC name needs to be changed to your *firstname-lastname*
- Enter the **PC Name**
- **Example:** *lance-long*
- **This is just an EXAMPLE, do not rename your PC Lance-Long. Use your own First Name and Last Name. Any machine named Lance-Long will be flagged and removed.**
- Click **Next**

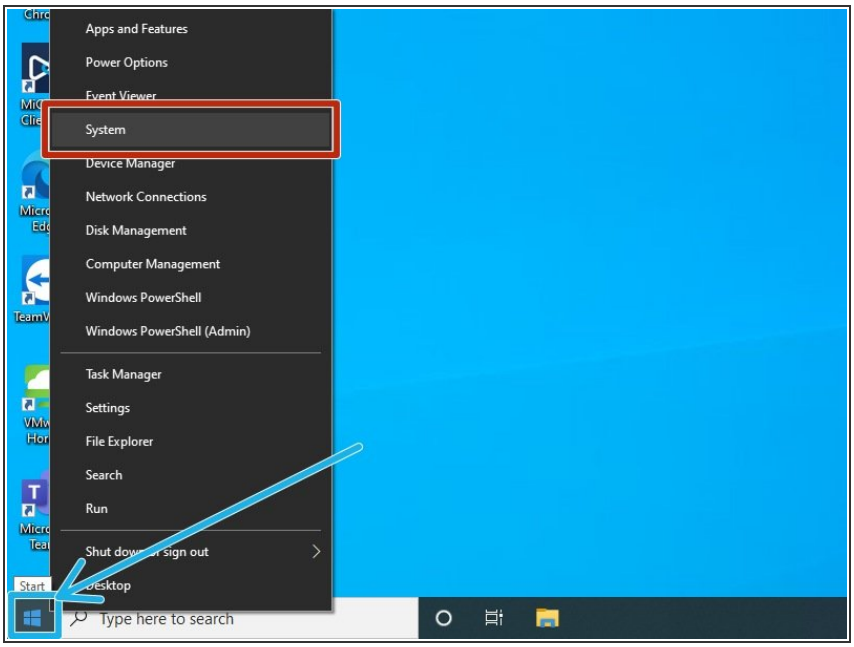

Step 4

- *The PC name will be changed once you restart your computer.*
- Click **Restart now**
