Step 1 — Set Manufacture Password

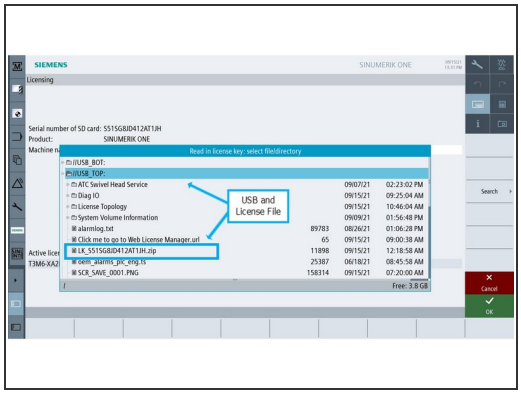

- Go to **[Setup]** (wrench icon on the left), then select **[Set Password]**.
- Enter the Manufacturer Password: *TRAKmt2021* and press **[OK]**.

Step 2 — Load License ZIP File on Machine

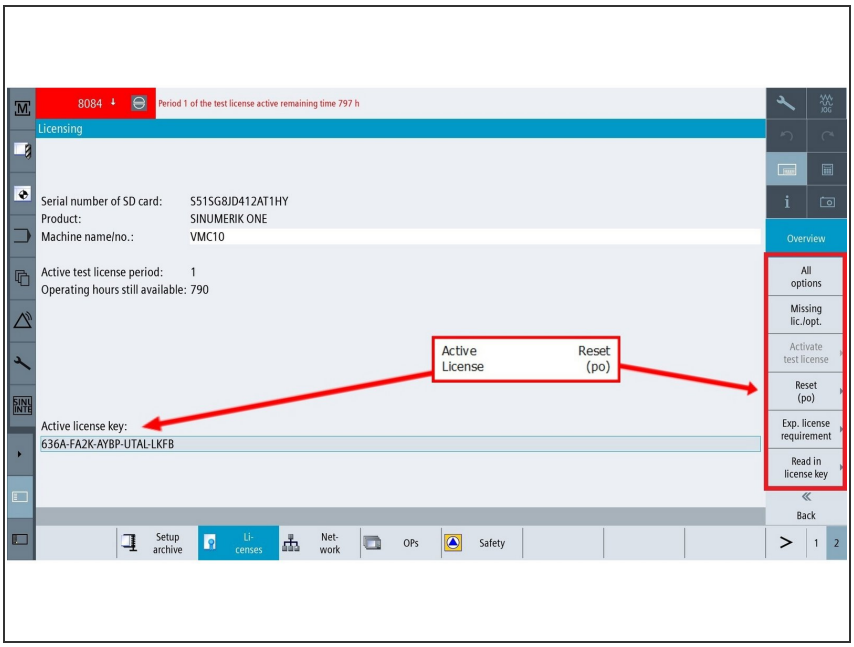

- Plug the USB drive containing the .zip license file into the right-side USB port on the pendant.
- ⓘ There is no need to unzip the file — load it onto the USB exactly as received.
- Go to **[Setup]** → **[Page 2]** → **[License]**
- Press **[Read in license key]** on the vertical softkey menu.
- Use the file browser to select your USB drive and navigate to the .zip license file.
- Select the file and press **[OK]** to install.

Step 3 — Activate License

- Press **[Reset (po)]** to soft reboot the control.
- To confirm, go to **[All Options]**, find the newly acquired license, and verify that both the Set and Licensed columns have their corresponding checkboxes marked.
