Introduction

The Epilog Job Manager is a powerful tool that allows you to access any job you have sent to the laser, view the settings you used on any past job, re-run projects, access your material database and much more.

- *Windows 7/8/10 is required to use the Epilog Job Manager*

Step 1 — Software Installation

- Please view the featured PDF file to properly install the software for using the Epilog Fusion Pro 36.
- ⓘ If you are installing the software for multiple users on a computer, please check the **Advanced** install when prompted.

Please view the attached document from the manual to install the software.
